Thread: [Anyone has video of hurricane Laura actually destroying things?](#)

reGame - August 27, 2020, 11:57 am

There are "after" videos on youtube but no any from when it was happening (with buildings being damaged by hurricane)

if you have such video id appreciate! you can find really insane videos of destruction of older hurricanes from years ago, though its very sad and unfortunate event i think everyone should see how it looks like (on video)

Nima304 - August 27, 2020, 12:10 pm

That'd be pretty cool, I'd love to see videos like that too.

High Council - August 27, 2020, 12:12 pm

For sure man, I'm sure the people who dealt with it first hand have more to worry about though.

Best regards

A + - August 27, 2020, 12:33 pm

There are some videos here. I'm sure there will be more to come.

Like 2020 hasn't been bad already... I'm tired of this. One disaster after the other.

Imagine if in 2021 we left all of this BS behind. Covid vaccine, no more riots or racism (people black and white didn't speak of it), the economy gets back to normal and jobs open back up and so on. Then we could continue working on other issues that matter such as the leaps in science and technology, peace... Hopefully this will all just be a thing of this past.

2020 make all this sound really optimistic. I like being optimistic though. I hope things go this way.

I want to see a vieo too OP, :)

Good thing for the people living there because they know a hurricane will hit there place. We have a near town here that hit buy hurricane to and they didn't knew it would happen.

Very sad, but would be interesting to see some footage, though it would be better if there wasn't any footage to begin with.
