Dexie - August 30, 2020, 7:25 pm

Maybe use something a little more in date?

Accord - August 30, 2020, 7:39 pm

First is dont use nanocore, it is been outdated for so many years and the author received his

sentence, you can go with async rat or quasar

Dexie - August 30, 2020, 8:11 pm

Is whatever his sentence was publicised?

Fire_Star - August 30, 2020, 10:45 pm

Try Async RAT OP. It's coded and maintained by a very Trusted and Reputable member of HF. Plus
Its a new and updated RAT.

You can Download from here: <https://github.com/NYAN-x-CAT/AsyncRAT-C-Sharp/releases>

dboylogz - September 15, 2020, 8:40 pm

get a new setup file for AV must hae messed up the one u have
