Thread: [LIST OF FREE RDP / VPS \[LINUX / WINDOWS\]](#)

flavoral - August 30, 2020, 6:02 pm

Here's a list of some sites that provides free VPS/RDPs.

1. <https://gratisvps.net/cvps/> [Might be out of stock]
2. <https://vps.apponfly.com/>
3. <https://www.cloudsigma.com/>
4. <https://sadd.io/> [You will have to email them for the free access]

Those 4 don't require any Payment methods or CC information either.

Was hoping to find couple more but oh well. Will update this thread if i ever find more.

LMK if you know any others that i should add.
