Regarding the BTC question:

I'm not always busy catching up with Bitcoin, but what I do believe it will reach near the 20k mark. If not, maybe in 2021 eventually it will reach around the mark.

Again, I don't follow any related BTC news (I do sometimes check the current market price).

shakur123 - September 1, 2020, 6:47 am

Thanks for this OP!! QL sent, posting my entry and answering the question.

I DO think btc will break \$20k, of course im not an expert but with all the recently news about btc, more people will get interested on it and with more demand price tend to increase.

I have quick loved this posting and have given you +3 popularity rating as well.

I guess it's really unpredictable for the bitcoin as of this moment because of the pandemic and I don't see it coming to reach the \$20k mark by the end of this year...maybe we can see bitcoin trending great again by 2021 but slowly and hoping to be skyrocketing before the 2022 :)

I think btc can most certainly hit 20k with the boost of the economy through another stimulus, bonuses and holiday pay coming, and just overall optimistic about federal institutions accepting digital currency.

tux1 - September 1, 2020, 11:12 am

I personally think btc will hit above \$20K for a number of reasons, but I think a lot of people are off work atm and looking for investments so maybe it will be the perfect storm.

Money Man - September 1, 2020, 11:47 am

thanks for this contest brother, glad to be participating.

I can see BTC going to 15/16k but I do not know if it will break 20k\$, i can definitely see btc hitting 20k+ though in the future.

Regulus - September 1, 2020, 11:54 am

Posting to enter this contest!

I do not believe BTC will hit \$20k by the end of 2020 to be honest.

It's been going up and down for a good while now and it doesn't seem very stable, but who knows, anything can happen haha!

Hopefully it'll reach \$20k

That'd be awesome.

Thanks a lot for this contest by the way and may the best person win <3

Mando - September 1, 2020, 12:06 pm

Thank you for the contest OP.

In my opinion I don't think BTC will hold up at \$20K this year, it's a miracle it reached \$10K to be honest, I say this because I think most people sell their BTC as soon as it goes up by just a little, I may be wrong though since I don't really keep up with all of this crypto stuff.

Have a wonderful day :)

First of all, thank you very much [Professional27](#) for making this awesome contest!

In terms of rules, ill try not to make my post a garbage one :)

Ill probably avoid multiple comments to not spam the thread, though i hope it wont hurt my luck and that ill still win :)

In terms of bitcoin breaking 20k, i really don't think it will get any higher then what it was on its last peak. 20k\$ is a big number, and with the influx of SO many different coins i hardly believe it will get a lot higher then it is now..

Free Kurdistan - September 1, 2020, 11:31 pm

QL'd, repped and posting to enter.

Yes I do think it will break 20k for sure.

I don't think bitcoin price will reach \$20k in 2020. Price is dependent on external factors so we can't say exactly when it will reach \$20k but hope for the best. I hope that lots of country will start adopting bitcoin as a currency.

siddy357 - September 3, 2020, 4:12 am

Qled and posting to enter.

As for your question thinking as halving has not happend (as it happens every 4 years) can't say it can reach \$20000 by the end of the year.

Skisuit - September 3, 2020, 4:35 am

Quick loved this thread, thanks for hosting this giveaway

I personally don't believe btc will hit \$20k, however I feel that it may have the potential to do so next year

Yanix - September 3, 2020, 4:56 am

Taking chances almost always makes for happy endings...posting for another entry.

Hoping BTC and ETH will continue to get higher this coming next year.

?roye - September 3, 2020, 5:54 am

I do believe bitcoin will recover back to 20k, the entire stock market is reaching it's high and bitcoin will too.

jecoylecoy - September 3, 2020, 6:12 pm

Thank you OP for hosting this event. I have done the QL and the positive reputation.

My opinion about bitcoin is that it will not break 20K in this year because there are lot of crypto currency in the market right now.

Poet - September 4, 2020, 1:36 am

Thanks for hosting and good luck to everyone.

I think bitcoin will crash hard again until the end of the year.

Can't even hold 12k\$ what 20k are you guys talking about?

BiggL - September 4, 2020, 2:06 am

Repped and QL'd - This is my 1st entry post!

So my answer is.. I reckon it will but not by the end of the year.. I think a little longer..

I mean looking at the market currently with its massive plummet its a little scary lol.. but hopefully it has a steady recovery!

2021 is my guessed year around mid year - 20k\$.

Thanks for hosting this giveaway OP, Goodluck everyone!

No, i don't think so, because due to Corona Virus, the global economy is already shrinked by over 3 per cent

redi - September 4, 2020, 5:23 am

Seeing as bitcoin price has taken a downturn in recent days, I don't think it'll go to 20k this year, but everything is possible specially with BTC.

Thanks for the contest OP :)

shakur123 - September 4, 2020, 7:22 am

Another page and another entry at this, thanks OP!!

A + - September 4, 2020, 8:11 am

Really cool of you to do this man, repped and QLed. In regards to Bitcoin, I don't see it hitting 20k by the end of the year but it could surprise us. I think Bitcoin in general will start dropping probably within the next year. Lack of security (publicity of the Twitter hack for example) and the ease of use factor makes Bitcoin not seem fit for adoption for a lot of people. There are other cryptos however that are trying to bridge the gap, for instance this company has their own defense team and caught a scammer that scammed over 1 million USD in crypto.

<https://www.publish0x.com/energi/chasing-down-discord-s-biggest-crypto-scammer-xroxrl>

Lots of potential for crypto and BTC paved the way, I just don't think that's it brotha. Then again, who knows?

Bitcoin touching 20k mark is very tough. May be a 14k to 15k is practical.

Cheers.

Free Kurdistan - September 6, 2020, 3:19 am

A new page so I'm grabbing another entry. Thanks for hosting.

Swordsman - September 6, 2020, 3:54 am

1. Done Quick loved your post, OP.

2. My Opinions:

Crypto Market is always influenced by pump and dump activities, so prices always fluctuate.

But we have good news from <https://news.bitcoin.com/paypal-cryptocurrency-capabilities>, if this happens then the price will go to the moon again.

Will this happen in end of this 2020, and bull happen again and break \$20K?

We hopes so, but I don't think it will happen soon.

Yanix - September 6, 2020, 4:13 am

Taking a chance again, I might just might surprise myself to get the winning number :D

shakur123 - September 6, 2020, 7:15 am

Another page and another entry at this, thanks OP!!

Bacardi Cola Lime - September 7, 2020, 5:39 am

While BTC was trending upwards the past few weeks, we saw it going back down. I believe it can reach the 20k mark only if a second serious covid wave is avoided and world economy starts to get back to normal. It's really hard for this to happen though.

Zeus - September 7, 2020, 7:08 am

Done good luck to everyone! great comp!
And yes i think it'll go up back to 20k 1 day!

Artisan - September 8, 2020, 1:58 am

Thank you for hosting this. Quickloved and max repped just now.

To answer your question, I dont think BTC will reach 20k\$ by the end of 2020 (or hold support there). Im fairly new to crypto but quick reads of some articles in this week indicated to me that the current psychological support seems to be around 10k\$ and everytime it goes up, people cash out a lot which brings down the value again. I think the current economic chaos going on due to the pandemic, the bailouts that are given by governments from time to time as well as more and more people opting for crypto will keep pushing the value up gradually but a 100% jump is very unlikely in my opinion.

Rahul007rhp - September 8, 2020, 2:05 am

Hope so BTC reach that milestone by end of 2020, that would be the best ending for 2020

Tro yeh - September 30, 2020, 6:07 am

First of all thank for this contest OP, highly contributing and encouraging for other members.
I don't think it will get to 20k by the end of this year, coz i saw this months progress and it was steady, as of today it is 10k, i think it will be steady in the coming months too and by the end it will be under 15k.

Skisuit - September 30, 2020, 6:22 am

zealNpossession - September 30, 2020, 6:23 am

QLéd and +3éd as well.
Regarding the question, NO, I do not think it will break the 20k mark.
It has been around 10-12k mark for about I think 2-3 years now, its really unbelievable i think.

SIM-4819776 - September 30, 2020, 7:34 am

Thank you for hosting this contest and making it available for everyone. I quick loved to qualify myself for this contest.

I'm currently just getting myself introduced to crypto currencies hence not confident enough to present my opinion here. But the pandemic definitely have its effect on world economy in general stocks and the crypto currencies. So BTC hitting 20K mark in 2021 is doubtful.

funtela - September 30, 2020, 3:52 pm

Here's my entry! Thanks for hosting. I don't think BTC will break \$20k this year

Prettykitty - September 30, 2020, 5:27 pm

Thanks for doing this. I believe it's possible that BTC will break that price, but it really depends on the holiday season and end of the year.

Prox - September 30, 2020, 9:06 pm

Very generous giveaway.

Bitcoin will probably dip even lower, and stay at that point until the new year, where it will break out even higher than it was previously.
