What makes it worth \$100?

In the near future recruitments will be possibly opening, waiting to get a colour change or a glow maybe, see what i can do.

It's personally worth it for me. I'm not begging people to buyin if you like it get in if not, then have a good day!

I'm looking to build the old community like Illuminati back in the day as i miss it.

If you have a problem feel free to take this to PM or convo don't need a whole discussion on the past on my thread. I'm pretty sure most the owners are closed/banned and the most recent one was Bandors which he was happy about me bringing it back.

None of the ex owners has a problem, leave it as that.

Illuminati is not original at all. Don't see a need to restrict branding since it's not something created on HF. The graphics were created for Zeus and not previously used.

I have denied group names in the past because of previous usage. Didn't see the need to deny this. When was the original group here anyways? Wasn't that like 5+ years ago?

I don't think we need to get all bent over this.

I mean he's literally banking on the old reputation of the group, which isn't an ethical thing to do when you don't even have the owners permission to do so. The name itself isn't really original and there's nothing wrong with using it. However, the way Zeus is using it is as if I would start selling a RAT and name it nanocore and make people believe it is the same quality of product and bank in on the names reputation alone lol.

Good point. I'm gonna force him to rebrand then.

Who was last owner? Was it Bandors? I'll try to get some confirmation on this.

And I know we have some private discussion on this but I prefer we have open public for this one instance.

I approved your group not thinking it would cause any problems but a few points brought up by members are valid. So until it's sorted out the group is BLANK.

If you know the true history of a group he's going to market off of you would understand. I understand, I get it but what do you expect to achieve? I've lurked around and have seen both iterations of the group so I can definitely see why you're frustrated that it's just came back up.

But if Zeus is allowed to have it then, there's nothing stopping him really. I'm not calling it harassment, but if this was a marketplace thread this would be sales trashing because these conversations didn't need to be had here.

Why you gotta lie and jump around

Why say Vinnie approved when he didn't

Why say bellagio approved when u have 0 ways of contacting him.

Weird how u asked for original graphics and didn't get it right. Maybe coz I don't have the blessing from original owners. Look at the wiki u can see bellagio was part of bandors version of illuminati however no one has contacted and asked him.

Why you gotta lie and pretend so hard.

Does it really hurt your online ego so much.

Just remember who taught a grown 22 year old how to make scrambled eggs over video call.

Was part of this group when it first came; lovely times. I sure miss this place.

Hope all is well with you Zeus, and the rest in here. Best of luck with your projects, have a great day!

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
