Thread: [W1PE.com, H1V.net, 4oc.net C0B.net Z1X.net - all for sale.](#)

Hello all, thought I would hang my domains out to dry.

I recently gave away 2 domains that otherwise had a 200\$ offer, for free since only one person replied and got both of them, timing is everything.

These are my main domains for sale:

W1PE.com, H1V.net, 4oc.net C0B.net Z1X.net, Uberdice.com, Exchangeforums.net

Now I have a licensed domain that I am selling for 25\$, 3 char, 1 letter .NET, with a profit gurantee on it. Do you get to register it where you want? Yes, I drop the hold.

This domain is sold for that price, as a random drop, so you will not know the domain, but I can promise that anyone would make their money back on it, this is a promo.

Still domains for sale, have new ones coming in. post then PM me for C/O.
