Thread: [Convo Pruning](#)

Omniscient - September 3, 2020, 2:07 pm

We will be pruning Convo daily in a task. Any messages older than 6 months will be deleted.

We do this in order to maintain a reasonable size database table.

The option to export any Convo to a PDF exists.

Pruning will start tomorrow. So if you have any Convo's you wish to save, do it now.

Any questions?

Good to know. Have some important convos I don't want to lose.

Free Kurdistan - September 3, 2020, 2:12 pm

Never knew you could export Convo to PDF, that's a pretty slick feature actually.

Nachfolger - September 3, 2020, 2:14 pm

Just downloaded my convo with [Xerotic](#) so I can blackmail him later. Thanks for the heads up boss.

Makaveli The Don - September 3, 2020, 2:31 pm

Seems like a good step needed to maintain a healthy database size. Thanks for the heads up Omni!

Target™ - September 3, 2020, 2:33 pm

Thanks for this Omni! Glad for the heads up

Truth - September 3, 2020, 2:34 pm

anyway to download all convos or is it just one by one

One by one. Currently we don't offer a bulk download option and I am not sure we will.

Ooooh, what kinda convos you had? ;)

Professional27 - September 3, 2020, 2:52 pm

This post came in clutch! I need to save an insane amount of convos, way more than anticipated.

Prox - September 3, 2020, 3:07 pm

Good to know.

Now if I could just get people to talk to me...

Dorrance - September 3, 2020, 3:58 pm

A prune all convos would be nice such as export all account data.

Klonopin - September 3, 2020, 4:12 pm

thanks for notifying [Omniscient](#) !

Perileos - September 3, 2020, 4:15 pm

Very reasonable decision to be frank. Is this also planned for private messages?

High Council - September 3, 2020, 4:22 pm

Exported on my phone and it looks like jibberish, maybe it's the app it's attempting to use .

"...obj <> endobj 5 0 obj <> stream xœ]RĚn´..."

Any recommendations for programs/apps to open the HTML/PDF ?

Best regards

Pms have and always will be pruned

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Out of curiosity, did you guys already prune Convo's at some point prior to this? I just tried searching for some specific ones but it won't let me go back to see them, it says "No more convos!" after clicking the "Load More" button at the bottom.

Dont forget to save my nudes daddy

Vaxon - September 4, 2020, 3:12 pm

Yikes, doesn't seem like much warning.

If you go to that members profile and click convos it should still be there

Sadly this only works if you got the list of users saved somewhere else. Most people including me don't have a list saved of all users and buyers/clients. I just hope this get fixed before the purge so we can export them.

You don't need a list of anyone.... if he wants to save his convo with the user "vibe" he can go to my profile and click convo.

That's only works if you know the name of the user. What if if you don't remember the name of the user you want? A lot of vendor have multiple clients every day, you can't keep remember every single name of them to find them, and you have to scroll through the convo to remember them.

If you don't know the name of the user then you could go through your contracts, as you should be using them for ever deal here.

Dotexe - September 5, 2020, 3:02 am

That's definitely a good thing, I have shit ton of messages by closed members now, spamming me with hacking requests. Poor souls

That's what i've been doing for the last 24h, but it's not as easy as it's sound still. Also, not every person you talk to is a buyer.

Yes keeping proper records Can be a demanding task.

it's much easier to keep them as you go and not try to collect all your records in a crunch, for future reference..
