I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Are these shared bots, or do you remove them from your server after install?

Dude no one on HF is gonna sell your private installs, if he says he will it means like 4 others get your installs, you never get a private install unless you have your own ek and traffic, HF is literally a cop fest, and skid fest

you will need to go to an underground forum To get your own private install or just run traffic

exchange on an exploit kit (ek)
