Thread: [MW2019 Launcher Lobby \[Need a partner\]](#)

Lookin - September 4, 2020, 7:14 pm

Hello,

I need a partner for a launcher lobby. I have a provider for \$5.99 for an unlimited lobby. We will both help each other with launchers, and you can even unlock camos while we're doing the launchers, as we need to farm killstreaks.

Let me know ASAP if you're interested.

Sent [mention=110996] a PM, however, it appears as if we are in very different time-zones.

If anyone is available now, then shoot me a PM.

BE careful, you could get perm banned because of bot lobbies.

The prices being that low is scary.. I host Modern Warfare Bot Lobbies and I see everyone getting scammed by those small priced lobbies....
