Thread: [Squanchy#2718 - BEWARE USER TRYING TO SCAM](#)

Almonds - September 7, 2020, 7:29 pm

Squanchy was closed earlier today, he since has began PMing members on discord and trying to sell bytes.

He says he bought 500K bytes from Omni before he was closed. It also just so happens that he is not comfortable using a middleman.

Spoiler ([Click to View](#))

Please be diligent when dealing on discord, and on HF!

flavoral - September 7, 2020, 7:57 pm

Yeah he's just trying to scam. [Prox](#) got same thing

What a loser hope people stay away from this kid

Pyro - September 8, 2020, 12:07 pm

one of the most pathetic scam attempts i've seen here

Lorem Ipsum - September 8, 2020, 12:14 pm

I am really sad to be one of the members who was proud dealing with this member..

Even if he bought 500k Bytes before being closed, do you really think Omniscient would tell him to give the Bytes to whoever bought it? He got closed. Meaning he did lose the 'fight'.

It's a shame some people try to scam like this, instead of finding a job or at least some 'real' value to sell online.

Dorrance - September 8, 2020, 5:53 pm

Can't believe user trying to scam, honestly if you get banned/closed just move on.
