Thread: [Do you guys check Vendors Market Profiles?](#)

flavoral - September 8, 2020, 7:34 am

Some of you might not be aware of that, but Vendors have a dedicated separate profile for Marketplace.

You can find that profile of Vendor by clicking on this button at the bottom of a post:

or from the Market profile then click on this:

I spent some time yesterday to revamp mine, so i was wondering: Do you guys check Vendors Market Profile or not? Did you even know it was a thing?

Also what you think of mine while your at it. Link:

MarvinMalware - September 8, 2020, 7:48 am

Yeah I check them if I'm doing business with a Vendor, yours is looking pretty damn nice with those GFX though.

I didn't know you could set a bio for your Vendor Profile.

Good to know.

Bacardi Cola Lime - September 8, 2020, 8:25 am

The revamp is looking good! I've checked the market profiles of some other V3ndors but only a few times.

Blockonome - September 8, 2020, 10:07 am

I knew it was there, but as I am not too deeply into that yet, I am not currently using it!

Vegeta Blue - September 8, 2020, 10:38 am

Honestly never knew this was a thing until you mentioned it.

Omniscient - September 8, 2020, 10:39 am

Thanks for highlighting what I feel is an important Vendor perk. We've done some integrations but these are still not used in a way that I had hoped for.

Vendor Profiles could easily be huge for a seller if they just setup them up well and put links in their sigs and threads.

Hoping that eventually we'll find the right way to get these out to the members.

Never, didn't even know they had that.

Free Kurdistan - September 8, 2020, 3:46 pm

Guess you learn something new everyday.

phunted - September 8, 2020, 3:48 pm

I did not know about this so thank you lots, it's definitely a nice feature.

Yours looks fire!

Poet - September 8, 2020, 5:15 pm

Just learned about this but yours look good.

N - September 8, 2020, 5:36 pm

This is pretty cool, hopefully more Vendors will utilize this feature. Yours looks amazing, good job on fixing it up! [flavoral](#)

Didn't know, thanks for sharing.

I didn't know it was a thing, but to be fair, it's been a while since I've bought anything on HF.

jecoylecroy - September 9, 2020, 12:59 am

I really have no idea in vendor profile and I'm still wondering what is my market profile all about :(.

BiggL - September 9, 2020, 1:02 am

Personally, I'm still trying to find the best way to design the profile.

Couple of the current concepts i'm testing:
Spoiler [\(Click to View\)](#)

Do you have any concept in mind of how you want Vendors to use it?

Stanley - September 9, 2020, 1:49 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Stanley

Acrid - September 9, 2020, 2:08 pm

Honestly had no idea, but Im definitely going to use it. Would have been useful quite a few times when I was trying to just find all the options from one seller.

Cheers!

SIM-3587630 - September 9, 2020, 2:19 pm

I do sometimes. I'd say whenever I have to deal with a v3ndor honestly, I do 99% of the time. Yours looks cool too. Not bad.

Zeus - September 9, 2020, 2:26 pm

Looks dope, loving the new look need to update my information!

I tend to check as many things as possible when I deal with users I've never dealt with, hence why, if they're vendors, I check their vendor profile too.

I'd say it's just better for your eyes. It doesn't affect the "trust part" imho.

Artisan - September 10, 2020, 11:42 am

I pop into some of the vendor profiles to check what changes theyre making but I dont do that regularly.

Still a fledgling mate. Im building towards it. Your one seems to be one of the most nicely done though so forgive me if I take too much inspiration from it.?

To be fair, I rarely check mine. It's particularly helpful if you have a bunch of auto-buy threads. Correct me if I'm wrong.

Nah no worries, if it makes people at least start designing their own, then it's good.

You can look at some other examples from this post too

Yeah it would probably be better if you link the template contracts in them directly

Nate - September 11, 2020, 12:53 pm

I only check my own market profile, or someone elses before im about to do a deal with them.

Personally myself I don't check it, I just click in profile and looking at contracts/DD

why not? I think it has good potential, it can be customized like a Shoppy/sellix store if done right.
