Thread: [Spotify Stream Tracking/Counting Bot](#)

SIM-2508228 - September 8, 2020, 8:17 am

Recently I created a custom discord bot to help me keep track of the stream counts for all of my Spotify artists.

Don't know if there are any other botters here who may be interested but I will be selling slots for anyone who is interested.

THIS IS NOT A STREAM BOT, simply a bot to keep track of your streams so you don't have to check the stats manually every day

Currently, it tells you the daily stream count as well as the total stream count per artist, and total overall.

Price: \$20 BTC/ETH Lifetime
[contract=tid]Start Contract[/contract]

Now that chartmasters has gone paid I figured I would sell this again

Bought the bot from OP, was nice to setup everything needed and helped to fix some minor errors. this will come handy to huge spotify botters so grab it while you can, You have my VOUCH.
