Thread: [Disabled iPhone Unlock Without Loosing Data.](#)

faisalmasood - September 8, 2020, 3:05 pm

HI ALL,

Can anyone hep me in unlocking my iPhone 7 Plus with ios 12.3 .

I have forgotten my 6 digit pass code and phone gets disabled for 1 hrs and i have last attempt left .

I don't have backup and also i don't have that computer with me where i had previously connected my iPhone to itunes.

I know my Apple id and Password

I don't want to loose my data as it has lots of pics which i cant loose.

Please help me.?

Please help me with the solution

If it concerns the pics only, try to connect to your iCloud from your browser to verify if you can get them from there.

Blockonome - September 9, 2020, 2:07 am

As the above person says... Try to access Icloud or maybe try to wait 1 H , give it 2 tries, if you fail, wait 45 min. before trying again.

it can easily be done.

you only need to off FMI first using open menu method first jailbreak using checkr1n then use open menu method to off fmi then again jailbreak and use ssh access to access all files you will able to access your all images, videos, whatsapp images, whatsapp vides, notes, everything.

or if you want you can take help of UnlockingSolution Telegram: t.me/unlockingsolution (Paste in browser)

they helped me in unlocking and getting recovered.
