i want talk about eternalblue like 888rat

QU?CKSILVER - September 9, 2020, 6:00 pm

- 888RAT is just another cancer
- Eternalblue is dead since 2017.

Move on.

DrCrypter - September 10, 2020, 12:38 am

Move on.its in lan and nothing better if you depend on target

HelloWorld.dat - September 10, 2020, 7:51 am

Wannacry used eternal blue, it's fucking dead. Like another said, moveon.

Obistone - September 10, 2020, 6:41 pm

EternalBlue is an exploit which was patched by Microsoft a long time ago. You would only get LQ clients with it.
