Thread: [What Is Your Favourite Pizza Topping?](#)

Blockonome - September 9, 2020, 1:15 am

Dear HF,

I have been eating the same pizza, for the past 3 days in a row and about to go to my fourth!

Would love to know what is your absolute favourite topping on pizza, if you could choose anything.

This pizza I am having is Italian Ham, wild mushrooms and mascarpone cheese, of course with tomato sauce.

Only thing that would make it a little bit better, is if I could drizzle a bit of chili on top, which I do sometimes.

SIM-2315787 - September 9, 2020, 1:16 am

Mayo. I love it so much. It's very tasty.

jecoylecroy - September 9, 2020, 1:21 am

My favorite pizza toppings are ham and cheese with some pineapples. :)

Free Kurdistan - September 9, 2020, 1:29 am

Ham is probably my favorite single topping.

One of my all time favorite pizzas though is Pepperoni, Bacon, Sausage, and if you have any hot sauce (wing sauce or Tabasco), dip it in that. Super good.

I'm personally not a fan of pizza (I'm sorry) but I honestly like sausages on pizza.

To me, the entire point of a pizza is that it's just fast food. There's really no point to make it gourmet

or something, and so sub-par ingredients are usually used.

So I associate sausages to that, and it honestly fits my palette preference.

Jimmie - September 9, 2020, 8:57 pm

Not really a topping but mayonnaise or ranch on a pepperoni pizza.

Mascarpone is basically Italian cream cheese. I've never seen that as an option on a pizza, are you sure about that choice? Chili on top? WTF...

I suppose my own personal favorite might be olives. Or maybe onion. Or it is sausage? Or....meh. Pizza is just awesome. I decided years ago that it is indeed my favorite food period. Nothing like the love of Pizza.

Especially at night when there's nothing else to eat, I'd be happy to open up a can of sardines and eat them as-is! Starting to think I might have been pregnant for most of my life!

My go-to pizza is usually a meat lovers pizza with all the common meat toppings for pizzas.

However, there is a local pizza place by me that makes great pizza and they have fresh tomato slices as a topping option and mmm those are so good when baked on a pizza.

mysQL 55th - June 8, 2022, 9:22 am

Cali chicken bacon ranch from dominos. For sure number one.

Upgrader - June 8, 2022, 10:50 am

Chicken on pizza is great.

Pineapple isn't awful although not preferred.

Raymond Reddington - June 10, 2022, 5:56 am

Pepperoni, for sure. I'll never understand why people get pineapples on their pizzas

vegetajgd - June 12, 2022, 9:44 am

I am not sure if this is considered a topping but before i loved cheese over cheese.. meaning my favourite pizza being Cheese haha.

But now i like pizzas generally as long it is veg:)

Vitani's Mate - June 12, 2022, 9:45 am

Usually have a large pepperoni pizza from Dominos. xD

Fucking love that shit man!

Dominos is probably one of my most favorite places to order pizza from if we are talking about major pizza chains. However, when I am willing to pay the extra price and treat myself I do enjoy some local pizza spots a bit more than dominos. I really love domino's pan pizza.

I do need to get out for some more of the local pizza places here.

But we don't really have much unless you are in the city which I am not.

Gotcha! Yea I live in the city myself so I have multiple options for some good local pizza but when I want some fast and not too expensive pizza I usually hit up Dominos.

I also love Chinese as well. I had Chinese last Saturday with my boyfriend and it was very nice.

But pizza is awesome and one of my fave foods.

I'd have to agree with you as well that Chinese food is another very tasty option. Pizza is one of my favorites just because it's hard to go wrong with pizza especially if you have a favorite one or favorite pizza spot.

Nullusia - June 12, 2022, 2:56 pm

I tried a nutella chocolate pizza today, not as good as I thought it would be.

Disease - June 12, 2022, 4:12 pm

There's not much I don't like when it comes to pizza. But my favorite is a toss up between Hawaiian (pineapple and ham) and a Chicken Pad Thai done by a local shop (grilled chicken, red onions, broccoli, and a Thai sauce instead).

Net Hustler - June 12, 2022, 5:36 pm

Pepperoni is definitely my favourite pizza topping I can't not think of a better one green peppers coming in at a second best.

MindkcuF - June 12, 2022, 5:39 pm

Literally any meat, preferably multiple with some homemade bbq sauce and some spicy sauce ontop

Raymond Reddington - June 13, 2022, 12:09 am

On second though, rotisserie, ham and bacon are good choices of toppings too.

TomHack - June 13, 2022, 7:04 am

Pepperoni and Cheese, my favs topping pizza. Will try ham topping on another chance.

Where did you even find it? A little curious.

I have been eating the same pizza, for the past 3 days in a row and about to go to my fourth!

Would love to know what is your absolute favourite topping on pizza, if you could choose anything.

This pizza I am having is Italian Ham, wild mushrooms and mascarpone cheese, of course with tomato sauce.

Only thing that would make it a little bit better, is if I could drizzle a bit of chili on top, which I do sometimes.

Im lame man i want it with just the cheese.

Azythum - June 17, 2022, 4:57 am

Pizza with 3 different kinds of cheese as a topping. I like cheese.

Raymond Reddington - June 17, 2022, 5:38 am

Speaking of pizzas, this thread just reminded me to order one.

Ordered a pepperoni and lamb pizza for now.

White base with real mozzarella di bufala, sausage, radish and some potato (NOT FRIED!)

You will love that, im sure ?

Interesting, I've heard of it.

Probably something you would see at a "costco" here, they sell a lot of random stuff similar.

Ohh we get Costco here aswell, it's wholesale though only and you need to be in a certain job usually to get membership. Is that the same there?

They are a 'wholesale' store although there's plenty of "unique" items which is why I said it's something you might find in one ?

Bacon is an underrated pizza topping, rarely see people order it (unless on a 'meat lovers'/etc type)

I'm plagued with the toppings of pepperoni and onions but I am trying to do better and venture onto other toppings to broaden my horizon. This is going to piss off some people, but I now understand the appeal of pineapple on pizza after being a staunch supporter of its species' eradication for so long. Just my taste buds changed over time.
