Thread: [Guidelines for selling an ebook \(What info can i not put in an ebook and sell here\)](#)

Shutdown - September 13, 2020, 12:43 am

Hey,

I'm currently writing an eBook about botnets, What type of botnets there are spreading etc..
My plan is to sell this eBook but I'm having a hard time of knowing if i will be able to sell it there since there is Disallowed Blackhat activity here. For example making money on botnets and stuff like that, i suppose i cannot put that in an eBook and be able to sell it here or can i? I've seen eBooks about botnets being sold here so any help would be much appreciated

Thanks in advance

Thanks,

Let's say i put out an ebook about botnets but i still want to talk about Disallowed blackhat activity would that be allowed if i sell the HF policy ebook on here but the other ebook (with disallowed blackhat activity) offsite for example in a telegram group or something but still from people that have bought the HF policy ebook if that makes any sense?

So

HF ALLOWED EBOOK > OFFSITE TELEGRAM GROUP > NOT HF ALLOWED EBOOK!?!?
Would that be something that is allowed since i don't wanna put out my book and get instantly banned

Thanks for the help

You can sell a botnet ebook from what I've seen.

Selling ebooks about botnets is fine but you must ensure you don't violate any of the DBA policies linked above (such as fraud for example). "Selling" something that complies with policies here then recruiting members to telegram group offsite and offering something completely different and illegal is going to get your account banned.
