Thread: [I made \\$72k last year \[Whitehat\] \[S\] 2 Copies + Mentoring | SEO Selling niche](#)

Faucet Failure - September 13, 2020, 12:52 am

I came across a method that I have made \$72k in the last close to a year, hopefully, 75k by the official September 26th 1 year day.

<https://gyazo.com/6ab208c001370174c5bc5eb34a40fdaf>

I can verify over convo on personal message proof of earnings more in depth if you have proof of funds or have reasonable suspicion.

A few disclaimers. Earning will not be an overnight thing, might be overnight but likely to get everything up and running it will take 3-7 days and during that time I'll give you a rundown of what to do, how to get started, and most importantly, how to bring crazy sale days.

The method does not involve

- CPA
- Ewhoring
- Anything illegal or immoral
- A completely autopilot system

This method includes

- A nice unsaturated niche which is why I am comfortable selling
- A clean way to scale and up earnings

This method takes \$860 of investments to correctly get started. It can start with nothing but to earn on the degree of what I am, it will be worth it.

I WILL COVER THE INVESTMENTS IF ANYONE BUYS COPY 1 OR 2

Copy E has special circumstances. If you pay that, I will use that \$860 just for what it takes to get started with proof to you (as in the things needed to pay for to set up and whatnot), + Teach you.

In return, you will resell a few products of mine at a 35/65 cut favorable to me for 6 months then if you want after that you can go as you please. But I cannot stress that an investment is required to make this method fully efficient, and that is why I have priced this accordingly.

I WILL COVER THE INVESTMENTS IF ANYONE BUYS COPY 1 OR 2

I really don't know what to put here other than question it out of me if and I'll answer it. If you just want to troll, the door is over there.

Pricing *****

Copy 1 - \$1500 - SOLD

Copy 2 - \$2500

Copy E-\$860 *****

Serious inquiries only. I have found a legal source of income that is more than most people's parents earn per year so I am not dumb for setting a price that high. Think it is too high? Stick to ebooks that "make you 4k in 30 days for only \$12"

Oh yeah and I made \$15k in one month <https://gyazo.com/f088e821cdf3b3c4a39dc5ce76dc795>

It really is to be completely honest If no one is interested it won't hurt me but if I sell I could gain a friend on the niche as well and could help us also grow, it would be nice but I am not spoonfeeding people

It can be a full time job but I am a college student and I spend most of my time at school. I can say that how much you put in is directly related to how much you earn but it is not unrealistic. There is an order processing system that is made for SEO sales that really makes things a lot easier than I check in, talk to clients, help them, handle orders and I am out in 30-120 mins per day. But, because I work on stuff my own I set my own hours which is nice.

What the heck, I'm interested as I don't have much else going on right now. Just to clarify, the Copy E would not require an additional \$860 initial investment correct? We'd just give you a % of our profits each sale until the \$860 is paid back in full?

Corleone™ - September 15, 2020, 11:41 pm

I have few questions:

1. Is this dropshipping?
2. Are you selling Digital product?
3. Outsourced services?
4. Anything related to Gambling?
5. Will this work for any country? (Even in country where Cashapp is not available?)

Copy E, you give me \$860 ad I use it just for cost related to getting you set up, and in return you just sell a product for me for 6 months as a resold product. In the mean time you will be learning how to create your own products/services and fulfil them.

(Sep 15, 2020 11:41 PM)Corleone™ Wrote: [\[CITE\]](#) I have few questions:

1. Is this dropshipping?

No this is not dropshipping. There is no physical product

2. Are you selling Digital product?

Yes. It is SEO related

3. Outsourced services?

You can but to cut back costs I have been doing it recently and it has just added like an hour a day to what I do. But my mentality is that if someone can do something better than I can, the I would rather pay them what my time is worth so I was able to pay a Virtual assistant about \$5 an hour to manage the tasks for me.

4. Anything related to Gambling?

I have had customers that wanted gambling sites but no, you will not be ownng or managing gambling related assets.

5. Will this work for any country? (Even in country where Cashapp is not available?)

Yep, paypal is preferred but there are ways around it. Most people in this niche use paypal(it's crazy). Most likely because a lot of customers are direct business customers or marketing directors.

They for instance get paid \$3000/month, then pay me \$2000 a month and then I do his job and everyone is happy. I just have created a product that works reliably with SEO keyword ranking proof. Hard analytical proof.

You should get at least a few clients during that 3-7 day period.

I just wont be able to do that because the first thing costs \$530 and then the other \$300 will be used for other things needed along the way but. payments take as low as same day, and as high as 1-2 weeks depending on what payment method you accept.

Yes, that is what I do currently and I manage customer support and upselling to them and overall sales/marketing. Tasks could be done by anyone, mostly basic data entry

Yep. My goal is to also teach you guys and hope you can also resell in my niche as well for me and we can both earn but that's up to you :)

You have direct B2B and B2C relations so 90% of the time it will be PayPal, and the other 10% I do stripe a bitcoin. But there are for sure other payment gateways you can have and depending on the demand will determine if they go through the hassle to use that payment method or if it is easier because they have it already. I only have experience accepting BTC/PP/Stripe

As often as you get a sale in most cases Some traffic sources takes 1-2 weeks for withdrawal because its a marketplace but other sources are direct sale traffic(Instant)

Not reselling, providing. But if you were to get copy E, instead of reselling, for those first 6 months you will just be reselling one of mine then around that time ill show you how to make your own + my traffic sources used to make the money I made :)

Here is a test I am doing of just one traffic source:

Interesting. I suppose you are selling to people who already know about SEO and are buying links? I know a bit about SEO and selling marketing services, so I'm more nervous about the purchase. I used to sell SEO, but was selling to businesses that don't know anything about SEO, so you had to

first sell them on SEO, then sell them on yourself. I'm in a different niche now so that's not a problem. But I'm curious about it, if you could provide slightly more info.

Sure, some know the direct function of links, and if no one knows, Larry Page and Sergey Brin created google based on a citation-based search which sounds good. ore research papers(websites) that have more citations(links) should be more trustworthy and that is basically how links work but then we hit the rel tags of nofollow, ugc, and sponsored which devalued these citations. Our team has cracked that process of getting the best citations.

That is usually what I tell people because they know they are buying links because fundamentally by Google's standard, Links will always have an impact in search.

What sets this apart from just saying, sure go sell SEO, are the traffic sources, the many fall downs I had in the past year that was able to solve and some make money on, deal with the good, and bad customers. Milk the good ones for sure. One of my core values with it is that if the service does not work they should not give me money. Same with this. If you don't think you can do it, don't buy it. It would not hurt me. All I know is that I use keyword trackers and analytically speaking they show that I can ake the needle moves when it some to SEO and that is what my clients care about

A lot of these marketplaces I would say are small bloggers, maybe some amazing affiliate sites ect. But there are also the SEO agencies that come by, get like \$2k a month for work, pay me \$1k a month, I do the actual SEO and everyone is happy.

Question 1;

Question 2;

Small update. As I told people previously this process takes about 3 months to get it going to get the full amount,. There are smaller amounts in the 1-2 month period but the bread starts around the 3-month mark for reasons. And we are reaching that mark. As that is said, both have earned money so far and will post back when their initial investment amount is reached, both in the 90-day contract period as agreed. Happy to see this going.

For now, the last copy is priced at \$2500, it will be raised to \$4000 when both post back that they have made back their

A-\$1500 back

B-\$860 back

Until then, you have a chance to decide if you want this method.
