Thread: [Buying Virtual Assistants/Blackhat Spreaders \[Good \\$\] I provide method](#)

Lord Bitcoin - September 13, 2020, 1:48 am

Hello friends

Looking for a team of virtual assistants (spreader bitches)

Let me know if you're available.

Must be:

*Focused

*Hard working

No particular skills required. It's basically making posts on Fiverr and Freelancer to infect them.

Fiverr is really the better option for \$. Freelancer I have infected many thousands of over the years and they're all very poor.

If anyone has methods to get bots, please let me know also. ???

Sketchy guy, I wouldn't trust him obviously. He asked if I could work for free since he was a billionaire.

Nope. You're sketchy for not working for a billionaire. I didn't ask you to work for free, you're bending my words.
