We're not sure about copying and pasting youtube videos, the methods are really private and they all seem to be efficient...I'm currently testing it.

Everything is very well explained and detailed, it's really a very good way, that I've never seen in spread methods (but I've done a lot of them...)

Moreover Cryptodude is really here to help you and his support is really great like him, great guy !!!

Frankly I recommend and I'm sure that with these methods you'll spread like a pro!!!

Cryptodude continues like that, really good job !!!

I highly recommend it!

Never seen those methods before so I cant say from now if they work or not, but they look good in theory.

You can easily understand what OP trying to say in the book even though it could be a little bit prettier.

Ebook is worth its money since you get mentorship from OP as well so you wont be alone till you make your first installs.

In this method I will teach you how to get a lot of infections on your file, with several super HQ methods. There is NO youtube video uploading in this, and no spreading on forums. These methods have no investment and target HQ bots.

I do not give cashout methods in this, however you can use the main ones that are free/easy or anything else you may have.

This ebook has been written over the past two weeks, with an accumulation of knowledge I gained while being in the malware industry

This ebook contains

High quality methods

Detailed tutorials with screenshots

20 page PDF document

Screenshots, links, 1900+ words

is this method a lot of work or you just upload the infected file somewhere and wait for downloads?

Captain Pre - September 14, 2020, 7:13 am

Intresting methods, I personally have never tried any of these methods (Cannot promise you the same). I would recommend OP to increase his overall writing but the information is clear, Its easy to understad what the OP wants to convey!

His methods can def work if you put effort into it.

7/10 is what i would give.

Got a vouch copy, after reading through the really well worded ebook I was very impressed. I don't really have much knowledge in RATs but could easily cash out with these methods as they are explained in very simple terms.

Good luck with the sales, you can probs get your money back within 20/40 mins then auto pilot one of the many methods ?

I've joined the private discord server and everyone is so helpful

Sorry, no more VC available. Many out and customer reviews are in

Kielon - September 17, 2020, 10:25 am

Leaving my quick review, took a little longer than I expected to get round to doing this, so apologies OP.

Layout: 5/10

Very readable, but does feature a lot of text that's the same size and in large chunks that probably could be compressed to fewer pages. This won't take any value out of the methods inside though, and there are plenty of pictures to guide you throughout.

Methods: 8/10

For this price you aren't expecting HQ spreading methods with private exploits etc, it still does focus on more well known and saturated traffic areas. However, the guide will teach you how to take a unique approach and still work very effectively.

Overview:

For the price you will not beat this, for any beginner I would suggest this if they are struggling to spread.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
