Thread: [Do you use the Follow HF users feature?](#)

flavoral - September 14, 2020, 12:00 pm

#2 Thread in this series?

Previous thread: <https://hackforums.net/showthread.php?tid=6107974>

If you don't know already, you can follow and HF user and get notified when they post a new thread.

You simply go to their profile and hit the 3 dots on the right then follow: Spoiler ([Click to View](#))

Then you choose the method you want to get notified: Spoiler ([Click to View](#))

So do you use it? Or are you planning to use it? and if so, who are you following?

Prawnster - September 14, 2020, 12:21 pm

Nah probably wouldn't use it, don't think there's any current members that post consistently note-worthy stuff (myself included) that would be worth following and that I wouldn't just see in the "New Posts" tab

Blockonome - September 14, 2020, 12:26 pm

I did not even know about this! Very nice to be honest, now I can stalk all the people that I want to :D

Deany - September 14, 2020, 12:31 pm

how do we check who is following us? wanna see my fans

Regulus - September 14, 2020, 12:34 pm

I believe I've used it on one single member lol.

Nate - September 14, 2020, 3:33 pm

I didn't even know this was a thing. If they incorporated a feed like some socials do I probably would use it.

phunted - September 14, 2020, 3:54 pm

I think it's a great feature, i follow a few people that i value here.

SIM-4033767 - September 14, 2020, 4:46 pm

jecoylecroy - September 14, 2020, 5:39 pm

I use notification feature but not the follow feature, I don't know that it existed.

Lyrlei - September 14, 2020, 5:52 pm

I use most of the features yeah, extra pages too from time to time.

Yanix - September 15, 2020, 12:02 am

Yeah sometimes I do use it when there were some important thread that needs to follow but it was very on rarely occasion :D

oRequiem - September 15, 2020, 12:48 am

Didn't know about this if I'm being honest.

Bacardi Cola Lime - September 15, 2020, 1:35 am

I follow Omni and Xerotic since the feature came out. Omni for his threads in the Crypto sub and Xerotic for updates.

Helper - September 15, 2020, 2:36 am

I just learned about this. I follow Stanley (to remember to checkin) and a couple of the staff. Will probably use in the future for Contest makers.

You should follow Omni and Xerotic for main HF updates.

They do post on normal threads as well as important ones but I think it will confuse me and annoy me, because whenever I get a notification I always know that I'm related and I get the urge to click and see it.

Mr. Corleone - September 15, 2020, 3:27 pm

I don't get why I should do it, so I don't. Rather use Twitter.

The follow feature is for new threads, not new posts.

I'm not following any users at the moment, but it's definitely a feature that I would use in the future. I use the 'subscribe to a thread' feature more often than the follow feature tbh.

Ye i use the subscribe to thread sometimes with some specific threads. I would say following omni and xerotic is the best option to be up with the latest HF updates.

Mr. Robot - September 21, 2020, 11:31 pm

There should be a feature for this that if a thread gets made with the UID of someone you follow in the title you get an alert.

That way you can follow people you do deals with.

banxia - September 23, 2020, 7:24 pm

Of course, I don't want to miss anything on HF so I link up with this amazing platform on all available channels. The Follow HF feature is very important
