Thread: [1k into 150k+ Bytes \(Flipping\)](#)

Prox - September 14, 2020, 1:54 pm

Today I was lucky enough to receive a 1k rain from a very generous member in the Chat Room... I've gotten around 30k or 50k in the past with 500 or 1k bytes but today I made the ultimate feat of reaching 100,000 bytes just from flipping!

The biggest fall was from 20k to 5k bytes. The biggest win streak was 8-10 5k wins in a row!

I took a couple screenshots to show my friends my progress, it's very exciting stuff.

Also quick loving every post on this thread :)

EDIT: Hit the 150k mark!

Yup they did, but they added a 1% cut on winnings.

Yeah it's pretty smooth, I got to 150k but lost 40k of it.

Might hold on to them for a bit until bustabyte

Artisan - September 14, 2020, 5:49 pm

I wouldve gone overboard with a flip 50k and busted coz of my shitty luck. Congrats on the feat. ?

Blockonome - September 15, 2020, 7:46 am

Man well done, but could you please tell me why you are using "tails" sometimes? Just personal preference?

Free Kurdistan - September 15, 2020, 7:54 am

I got no patience for that haha but well done man!

?roye - September 15, 2020, 8:10 am

I didn't know you could flip 5k, last time I flipped, the limit was 1k.

I've seen 5k now is the limit brother :D

Big players are now enjoying the 5k flip for much better payout.

hahaha but those who have so much bytes are really enjoying that much.

Maybe it's not for us to bet that high for that game :D

MarvinMalware - September 15, 2020, 8:39 am

Damn this is incredible man! Congrats you had some serious luck!

The Degenerate - September 27, 2020, 4:43 pm

I just did 6.4k to 100k and lost them all. Managed to only sell 13k out of them.

This is addictive haha

Rezon ® - September 28, 2020, 7:22 am

Nice win dude, that game is so random. I always end up loosing. Must be a trick to it.

SIM-3205632 - September 28, 2020, 7:27 am

Bytes aren't meant to be kept, only spent.
