Thread: [\[\\$300/Day Passively\] Stream Botting Mentoring || The Only Fully Passive Income Stream](#)

SIM-2508228 - September 15, 2020, 9:45 am

For the past year I have been botting many different streaming services for profit, from this I have made over \$30,000 from just sitting on my ass. That's right I have done absolutely nothing other than spend a few minutes to set up and then collect fat payments every month. I can guarantee this is the only real passive income stream on HF. And this isn't like a lot of these other methods on HF that you will buy and don't work, this is something that has been around for years and now I am offering you the chance to begin your journey without wasting thousands on testing and learning yourself.

What will you get from this mentoring? I will hold your hand and teach you how to bot for profit on services such as Spotify, Napster, Twitch, etc.

I will show you multiple different ways to approach this, and multiple places to get everything you need.

I will teach you how to grow safely and show you exactly what not to do if you don't want to be banned.

By the end of this you will know everything I know about botting for profit, and may even be able to expand more than I am depending on your budget ?

What do you need to begin? Other than my fee, I wouldn't recommend having less than \$500 to start with, preferably \$1000-\$1.5k depending on how many services you want to start botting.

Do you guarantee I will earn/won't be banned? Due to the nature of this method I cannot make any guarantees but if you follow my instructions it is extremely unlikely that you will be banned or won't earn off of this, it's basically printing money.

Happy to announce I will be partnering with [KyO](#) for this service from now on.

Price: \$400, crypto only non-negotiable

Sales closing soon to keep this HQ

Purchasing this will also give you free access to my stream counter bot to make it easier to track your streams and profits! See below

<https://hackforums.net/showthread.php?tid=6107981>

I will not be posting my payout proofs publicly but if you have any doubts or questions just shoot me a message and I will be glad to answer and show any proof you'd like.

Note: All sales are final. (No refunds)

No vouch copies.

Bought this almost a month back and let me just tell you, Druze is an amazing mentor. He will literally take you by hand through the entire process and won't leave a single DETAIL out. He will give you every bit of information you need to know whether you asked for it or not and provide you with the best there is to know in this business. He's got the experience and is willing to share his golden nuggets with his students leaving NOTHING out. Notice how I'm repeating that same thing? Because truly, if you are a complete beginner you'll be taught everything and it doesn't matter if you'll need it or if you'll even use it, he'll teach it to you. Patient, honest and very helpful to his students. That's about Druze for now.

Now regarding the business itself, Druze has gotten me setup and in streaming mode since the last two weeks of Sept and we can expect payouts by the end of Oct/Nov where I will update this post with earnings and so on and so forth. This is some very lightweight work and with the hand-holding that you get you'll be able to roll on your own in no time. Stay tuned.

(Oct 7, 2020 09:52 PM)mudbenson Wrote: [\[CITE\]](#) I purchased this mentorship a couple weeks ago. I was surprised by the (relatively) small price, so I was intrigued, and I figured "why not?"

Druze holds your hand through every single step. I went into this with absolutely no knowledge of streaming. He literally spoonfeeds you all of the resources that you need, and even if you are inept at this stuff like me, he is willing to take the wheel and set up some of the stuff for you.

I will post updates with my earnings, but this is one of the better methods I have ever bought on here. Even if you think you know everything, you probably don't - he is going to help ensure that you do not get banned.

Overall, extremely happy with the mentorship, for the cost and the attention that Druze provides. 10/10, I wouldn't hesitate.

(Nov 17, 2020 09:06 PM)Lulzcat Wrote: [\[CITE\]](#) So far Druze has been amazing to deal with. Very professional, organised and methodical. He's provided me with all the necessary resources to get this going. Just waiting on some money to come in as there is a little bit of capital required, not much but I'm a broke bitch.

If you're hesitating about purchasing this mentorship I would recommend that you jump on this NOW as I believe he should be charging way more than \$250 with what you get out of this, by far the best purchase I have made on HF and I've made a lot.

Will update as I continue my journey :) (Nov 26, 2020 09:35 PM)kook Wrote: [\[CITE\]](#) Huge vouch for Druze. I knew a little about streams and thought it was enough. No where close. He lays out EVERYTHING for you to start profiting off streaming. How to setup everything, the best services, what not to use, what not to do. And is constantly updating you with info and is overall very helpful. Great response time - almost always available for any questions or issues.

I'm getting things setup on my end now. I highly recommend getting his last copy.

(Nov 27, 2020 10:52 AM)Sholi Wrote: [\[CITE\]](#) Well, remember I said I got some botting done in the last week or so of Sept? That actually paid off more than it should:

You're selling a public method for 150\$? What are you giving extra for this money? Also why aren't you giving a vouch copy? Don't want to talk trash but these are my honest questions. GLWS anyway!

I'm selling my knowledge and experience for \$150, I've seen plenty of people jump in and get banned and lose their money because they have no clue what they're doing, \$150 is a small price to pay for the knowledge to make you \$10k monthly, which I'm currently scaling to. And no vouch copies because your paying for my time and this isn't some super secret never before seen method

The Director - September 15, 2020, 11:06 am

Interested, how long will it take me to scale to \$10k/mo if I focus on one service? Also i'll probably need to pay for songs, artwork etc but will I need to pay for the streams etc or do you show us how to automate this?

scaling is 100% dependant on the money you have available to invest, the more you can invest the more you can scale. If you had enough investment capital you can start off at \$10k per month. I will also show you how to stream yourself (still takes an investment) but I can also provide reliable stream sellers that I use myself.

For multiple reasons I will not be offering a vouch copy, first being this is going to take a decent amount of time since I will be holding the student's hand and walking them through it, and second, is it takes 2 months to start receiving payouts. I am currently making plenty monthly off of this, the money from this mentoring is simply going to testing and expanding to new services.

Any discount for the first copy? I've been into this market for some time now aswell but only for the quick bucks, never really scaled/reinvested the profit.

Because of my experience & knowledge in this area, I believe I'm the perfect guy to leave an honest review of your service. Let me know :)

150\$ for:

- sign up on spam

- start with sending streams 500 a day per song and in 2 weeks raise it up to 1000 and keep low profile

Rinse & repeat with other distributors?

Well I've had a couple sales already so obviously some people think it's worth it. Keep doing what you're doing and I'll keep doing what I'm doing. I don't think your approach is the best way to go about it but that also depends on a lot of factors

This wouldn't work because none of these services payout in less than 6-12 weeks depending, you

can't expect an MM to hold funds for 2-3 months.

\$150 isn't that much if OP can really deliver all that he promises.

But I would not bother with anything else than Spotify - Napster and Tidal royalties are paid out after 5 months (at DK, with other distros it's 6-7)

In terms of music platforms I only focus on those and pandora (even tho pandora takes a bit longer to payout). But you are correct there's only a handful of music platforms that are worth it. Napster takes longer but pays out much higher. And tidal I haven't really tried since it takes so long to pay. Spotify is of course the best though

For buying streams on Spotify for example, it's about a 3x gross return. But When running your own setup for Spotify, Napster, Pandora, etc the investment to payout ratio varies depending on multiple factors.

Going to be closing sales after the next couple of students and may reopen and increase the price when there are payout proofs

SIM-2508228 - November 4, 2020, 10:34 am

Officially decided I will only be selling 4 more slots for the time being, if sales do reopen the price will be higher.

Could you let me know what sorta speed I'd be getting to the \$10k a month if I invested lets say \$2k to start with?

And what sort of scaling limits do you think I could safely get to without any extreme problems?

So far Druze has been amazing to deal with. Very professional, organised and methodical. He's provided me with all the necessary resources to get this going. Just waiting on some money to come in as there is a little bit of capital required, not much but I'm a broke bitch.

If you're hesitating about purchasing this mentorship I would recommend that you jump on this NOW as I believe he should be charging way more than \$250 with what you get out of this, by far the best purchase I have made on HF and I've made a lot.

Will update as I continue my journey :)

I may close sales by December regardless of if the last 2 spots are sold or not

This is going to sound real stupid, but I have no idea what this is about. However, I have the capital to buy this and invest.

Could you please pm me more details about what this is about and perhaps we can get something going.

Thanks legend!

Final copy now available for \$300.

Stanley - November 25, 2020, 10:08 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Theres 3 vouches on the first page, and more students who have recently joined.

SIM-3558566 - November 26, 2020, 8:35 pm

Huge vouch for Druze. I knew a little about streams and thought it was enough. No where close. He lays out EVERYTHING for you to start profiting off streaming. How to setup everything, the best services, what not to use, what not to do. And is constantly updating you with info and is overall very helpful. Great response time - almost always available for any questions or issues.

I'm getting things setup on my end now. I highly recommend getting his last copy.

Sholi - November 27, 2020, 9:52 am

Well, remember I said I got some botting done in the last week or so of Sept? That actually paid off more than it should:

You could say I got my mentoring money back and more's to come soon. Once again, vouch for Druze!

Spotify Botting is becoming dead now because of Spotify's new anti-bot rules for 2021.

Will your methods still work?
