Thread: [Phones behind 500,000,000 Facebook profiles - generating leads and targeted niches.](#)

**FbLeads** - September 16, 2020, 4:33 am

Hey HF.

I am selling exclusive phone leads taken directly from Facebook users, they are not public and weren't scraped. (These aren't phones the users posted anywhere on Facebook but the actual phone linked to their account)

???

The information you get is:

Phone, Facebook ID, Name, Last Name, City, Workplace.

Some don't have the City and workplace but all of them have the Phone, Facebook ID, Name, Last name.

???

In addition, if you provide me with a Facebook public group, I am able to extract up to 10,000 users per group and provide you the phone numbers of around 30%-40% of the users in that group.

That would cost you \$100 per 1,000

How do you take payment??

**Perileos** - September 16, 2020, 3:50 pm

How often do you scrape the emails as well?

I don't "scrape" anything here, it is a database of phone numbers originating from facebook, there aren't many emails, over 500,000,000 phone numbers with the information of the facebook users
