Thread: [COINPRO - Trezor, Ledger, 2FA Wallet Coin Extraction Service](#)

roberttego - September 19, 2020, 1:50 pm

Do you have bots which have coins you cannot access?

We can help extract those funds. It does not matter if coins are protected by a hardware wallet, or 2FA. We can provide a chance to get the funds.

Vulnerable wallets:

Exodus (2FA does not matter)

Blockchain.com (2FA does not matter)

Electrum (+Trezor/Ledger support)

Wasabi (+Trezor/Ledger support)

Bitcoin Core

Green Address

Ledger Live(The Ledger App)

Trezor.io(Trezor website)

How it works:

We provide you software to run on your bot. If we succeed in getting funds, you get 60% of the funds, we get 40%

Contact:

Jabber: coinpro@jabbim.ru

Please provide following information:

-Where user has funds (which wallet or hardware wallet)

-How many funds user has

-Do you have ability to run software on the bot?

- it makes no sense for us to scam you (then no affiliate will work with us in the future)
- you have no other option to get protected funds, since our methods are unique and 0day

>>> If you can get funds yourself, fine, keep 100%

Isn't it boring posting negative shit on people's threads literally every day?

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
