Thread: [BytePoker.cc - Poker with Bytes! --- Beta](#)

Charger - September 20, 2020, 2:48 pm

Early beta of BytePoker.cc

Important Notes:

Server may crash occasionally. Bytes will not be lost when this happens.

Minimum deposit/withdraw is 100 bytes. You can't withdraw/deposit anything less due to HF API limitations.

5% 3% deposit fee

You can join rooms, invite friends, and gamble your bytes.

Can't you just steal all my bytes? Yes, but Omni/Xerotic would reverse it quicker than they could close my account.

[How to play \(YouTube\)](#)

Check it out:

<https://bytepoker.cc>

Yes, the landing page is super ugly. The actual game looks a lot better.

Try it out.

If the game site doesn't load then you'll have to wait for me to restart it.

Don't store a shit ton of bytes on here

Understand that if something breaks and you lose the bytes you have stored then I will do my best to manually send bytes back but there is no guarantee. Once again, this is in beta.

Minimum deposit/withdraw is 100 bytes. You can't withdraw/deposit anything less due to HF API limitations.

5% deposit fee

You can join rooms, invite friends, and gamble your bytes.

Again, this is in early beta.

Server may go down, so again, don't store a ton of bytes.

If everything is good for this I am sure there will be many members will be coming and I am one of those to check it out :D

I love playing poker :D

Dorrance - September 20, 2020, 9:33 pm

Dam I been waiting for this for a hot minute, thank you my boy. I will check it out in a bit.

Zero - September 20, 2020, 10:01 pm

This is legit the best thing ever!

Will give it a try after work.

Thank you for this!

HECK YEAH! Sign up me, literally what I've been waiting for.

Well done my dude.

ETH - September 21, 2020, 1:21 am

I will join once my bytes reaches 100 bytes !

Hope many will join

Very nice concept, and might play soon.

However, I have one question with the API usage.

Why do you require advanced info (unread pm's and etc)?

Again very new to this, so if you could elaborate a little more.

Looks like a good project, buddy. Personally, poker doesn't appeal to me much, although a few days ago a friend tried to convince me to learn to play. If I have some free time, I might consider joining.
How long have you been playing?

There's no way to cheat. Cards are drawn from the server.

Yes, I agree but it is a better idea to display the cards of each person betted at every end of the round. If a person folds the other player not seen his card. Without knowing the other player card in hand would make me think it would be a random winner and not poker. :)

Why not? :(

Quote:Poker Show Rules

After the final interval there is a "showdown," which means that each player who remains shows their hand face up on the table. The best Poker hand then takes the pot. If a player makes a bet or a raise that no other player calls, they win the pot without showing their hand.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
