hi soon i plan to sell organic traffic, search console, ad traffic etc but i need to upload tests so i need 5 people who have a site with google analytics to send organic test traffic, they just have to send me (url, word , traffic country and 3 screenshots (one before sending the traffic, when the traffic is coming and after the traffic) is 100% safe traffic and very low bounce rate

you also soon need people who want visits to youtube or coursera course certificates :) good day!
