Thread: [Problem with \[BRAND NAME REMOVED\] slow likes](#)

Treocon - September 21, 2020, 2:33 pm

Hello,i've been currently experiencing the problem which causes me to get slow likes on [BRAND NAME REMOVED],basically i dont get the Newbie boost when creating the account.I know i am not the only one experiecning this Problem.Currently im using numbers from autofications/smspva and proxies from 911,ive been trying to use mobile data without proxy and just spoof the location but it also didnt work,is there anyone who could share how to fix the problem ?
