Thread: [paid for insert html injection](#)

mans887 - September 21, 2020, 8:37 pm

please help

i will pay for who can help me insert html injection

Drqonic - October 3, 2020, 11:14 am

The correct term would be Cross Site Scripting (XSS) thus, not being a SQL Injection. Which website are you actually trying to pentest anyway?

HTML injection is an attack that is closely related to XSS

If he were talking about pure HTML, for sure, but I highly doubt that's what he is desiring. Dunno though, I could be just assuming what he wants incorrectly.

yes, maybe what i find is xss attack
so i can got backlink from other site
