Thread: [\[FREE\] Copyright for FREE eBook \(Includes Digital Works\)](#)

Bull Knows Best - September 22, 2020, 2:50 am

I made this eBook and sell it on various micro gig sites but figured I would just give it away to everyone here on HF! If you already know this method, cool, but this is for the ones who don't and want to copyright their works for nothing.

You're probably thinking I am nuts for even offering such a gig, well maybe I am! I was in your situation once, and needed some stuff of mine copyrighted for either cheap or free. Well NOTHING in this world is exactly FREE. So if you want to find something for free, you may have to search and search and search for it, which in the end, isn't free per se. The searching takes up your time, and what is time? MONEY!

I spent many days and many hours searching for something that would be legal, legit and FREE. I finally found what I was looking for. The biggest part about copyrighting something, is to first, research just what the word "copyright" really means. Once you have done your homework on that, the rest just falls into place. STOP throwing your money away to expensive copyrighting services!

You won't pay a dime for the copyrighting service and best of all (other than it being free to copyright) it is recognized WORLDWIDE! Full support is included! The only extra that is optional is their professional take-down service, if you ever need it.

3 FREE Bonuses are included as a THANK YOU.

This seems like something people would sell on HF, but if you are kind enough to give it for free, I would kindly take it. Can you send me a pm?

Thank you
