Thread: [\\$3000-5000 PER MONTH - TAKE ADVANTAGE OF CASINO BONUSES \[AUTOPILOT\]](#)

Tomek Radomski - September 22, 2020, 7:03 am

Selling a method to make couple of thousands \$ per month taking advantage of casino bonuses.

Features:

- Easy to use
- Autopilot
- Working worldwide
- Can be scaled
- Whitehat

Requirements:

- Depends on where you live, you will need 1 or 2 RDPs
- \$100 or more in crypto

There is no limit on how much you can earn with this method. I found it at the start of the month and already make pretty decent money with it. The method works only in 1 website. With a decent budget you can easily make a fortune with the method but you can also start with as low as \$100 and scale from there (like I did). Upon purchase you receive full private mentoring from me and personal support whenever you need it. This method works only with crypto currencies. You don't have to be over 18 to use the method ! Take on mind that the method involves gambling and nothing is guaranteed but so far it is extremely safe and profitable.

Price:

-\$650 5/5

After the first 5 copies being sold, it will be increased to \$400 per copy

Accepted Payment Methods:

- Crypto currencies

Refund Policy:

Earn Or Refund !- If you are not able to earn with the method, you will be refunded what you have paid for it.

First OP is really nice guy and helpful can't say nothing bad, was accept all my terms and was very friendly through whole process.

Second thing price, first I was complain that is maybe to much, but then when I think better how much money some people are looking for crap I can say that price is fine (i spent a lot of money here on hf so believe me in this one), I mean if you go into gambling and casinos you don't care to much, because if you go with gambling then you are using money which you are ready to lost.

It's true that I was make 30\$ in first hour without do anything as everything is on autopilot, you just have to collect profit.

But decide then to go with safe option (which I suggest to anyone who start with 100\$ investment).

I was suggest to OP to tell to his customer that they should start with 200\$ investment just in case. The way how you gamble it's safe but don't forget that is still gambling, but if you are not greedy and smart enough you could make profit of this.

I had conversation with OP and he said that I should wait until I reach "something" so if I reach that will make full review (could take 2-3 weeks).

Site where u play is trusted and you will get paid for sure and really no point that I make cashout of 30\$ and post proof here (but will post when I return my complete investment if I don't lost everything :D)

Method is scalable so you can make more money if you are ready to invest more money (if all of these will work as should will scale this method in next few days).

I know that everyone want fast cash with little or no effort but be realistic, and the main gambling rule, don't be greedy, follow the OP steps, cashout your profit regularly and you will be fine.

If you "survive" first few days after starting with method you will be fine.

EDIT:

Maybe I skip few important things, method is really simple, you set everything in few min and you are ready to go, way how you gamble on autopilot is simple as well. So everything is on autopilot so you just take your potential profit out (in case that you don't get busted and lost cash :D)

Also don't get so "excided" with this review and just jump into that and invest money because you think that you will earn money 100%

This is gambling, there is always house edge and you can lost anytime your money, put money which you are ready to lost, and once more don't be greedy and be smart.

Also if you are not ready to lost that much money I will suggest you to wait few days and see other reviews of regular buyers here on HF, that you can see what is going on at all.

1) First of all this method works at stake.com or primedice.com(as I see from your screenshots) and you have to be OVER 18 to use these gambling sites. Also you can't use these sites many times cause of region, it's not allowed in US and other countries.

2)That method has to do with the platinum accounts and the "giveaways" that site gives to those who wager good amounts.

3)Even if you gamble 0.000001 btc per round at 1.01x (98% winrate) you'll lose many \$\$\$ while you're trying to get the top wagers on the site.

4)Top wagers for the "giveaways" are couple btc so probably you won't be able to make the number which is required to get the bounty. And if you do you'll lose around 200-500\$ dollars probably while you're trying.

5)If this method worked as you say you would just make tons of accounts on these gambling sites and you would be millionaire.

6)Plus selling 3 copies within few hours from the time that you posted the thread to guys who joined literally 2-3 days ago (Join Date: 09-19-2020) and all newbies with no contracts seems sketchy.

I'm not close to millionaire but I'm earning enough with it

So did any of you withdraw your earnings?

Because that's when the casinos usually ask for ID and you can just forget about your earnings

You need 5 minutes of your own time to setup everything.

So I'm guessing you get a bonus when signing up and you need to gamble the money till you can withdraw it (or roughly that) ?

How often does it work out so you can withdraw?

Just wondering if it's worth my time, like can I make \$100 a day with only 5 minutes of work daily?

Okay, so, lets say I set this up today with a \$100 investment.

You say it's autopilot, so once it's setup, how long until I've got my \$400 back (the price of your method)?

Also, is this something you think the site will figure out/is it saturable?

As I state in my review you should wait if you wasn't ready to lost money.

I don't try to defend myself, or OP, but I didn't know about that bonuses on site where you betting so I decide to make my own method for this, but site have some technical issues in last 2 days so I'm unable completely test it out.

I was lose first 100\$ as well, and as I was use middleman in my contract I was get full refund as he (OP) never get money on his account.

But I testing on multiple accounts (400\$ each investment) and so far is going fine, but not with thing which OP was provide.

There was few things which I was told to OP to fix but as I can see from your post he didn't, first is price, second is initial investment, third is way how you betting.

But anyway, I have convo with middleman where I was very suspicious about his account(s) same as you.

Hopefully in next few days I'll be able to test everything out and make my final review.

Sorry for your loss, but you should be more carefully (all of these was in my review)

He stopped the whole process while it was going which caused him loosing money. Than I felt bad for him and offered him a refund if he loose as a bonus. He lost the bonus and than I offered him to refund him but I was outside and when I came home I saw him making a fake thread about me and opened a dispute against me. He clearly broke them

For your luck everything worked the way it should have for you and you were supposed to get a refund, but than you made a fake CA against me and opened a dispute so I keep my right to not refund you anything

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

You are not willing to cooperate so you will not have a refund granted.

I was generous to offer you one, but you started acting cocky.

Thanks for your purchase !

Thanks!

Also, your version of 'cooperate' is delete all evidence of you scamming, then you'll supposedly refund.

I never scammed you. You didn't follow my steps. Therefore I can't do anything about it but I felt generous and gave you a nice deal which you declined. Therefore I can't help you !

This user gave me a -3 rating because I refused to purchase his method after his recent dispute. I was held up because I was studying and he was not online when I was online (for 5hours). He replies back saying : I am not going to play hide and seek with you, understand ? And continues to provide a negative experience after that.

Deal with caution

You made a great choice not to buy the method. You would've ended up losing your money & being scammed. Just wait and you'll soon see an exit scam from Tomek

You made money with the method and decided to scam me but in return you will only receive -400\$ you sent to the MM and a deal dispute and a lovely negative b-rating from me :)

Method flat out does not work. I followed sellers instructions to a tee and still i just lost non stop. I understand it is gambling but what the seller is selling does not match up to the results that I am getting.

I would not recommend that anyone buys this product.

Francis Gallagher - September 27, 2020, 10:39 pm

Is there a reason you opened a \$400 contract with me, when I never expressed any interest for your overpriced and useless method?

Is this just matched betting? where you bet and back a bet using a tool like oddsmoney to calculate the odds? If so there's loads of free versions of this online... I did it for 2 years before it got really saturated (Bonus abuse basicly)

Sites like TeamProfit show you how to do it free?

Correct me if I'm wrong and it's not that tho :P
