If you would like to get this tool just shoot me a DM, Hope you guys have a great day!

Prawnster - September 22, 2020, 4:45 pm

I would suggest an "add to clipboard" feature being added, but apart from that, looks like a nice tool mate :)

Thank you for your suggestion I can add a clipboard option for password list in the next update no issues!

Yeah, or just make it automatically add the password to the clipboard and the messagebox says like "The correct password is: 'blahblahblah' and it has been copied to your clipboard", just makes it even more easy for the users haha.

I'll add a few features tomorrow

Add password list to check with clipboard

List box shows password at the end

Copied to clipboard

Shows messagebox

I'll also add as a failsafe an option that outputs results folder and list the program path and password

Thanks for your support

jecoylecoy - September 23, 2020, 12:21 am

The software look good OP, I want it to try. Does it supports .rar files too?

Thank you :)

-PUBG- - September 23, 2020, 7:21 am

New update tonight coming for the tool

? ??G??oy ? - September 23, 2020, 7:53 am

Oh nice !!

Can i get it ? I talk to you in convo.

-PUBG- - September 23, 2020, 11:19 am

Anyone else wanting it just DM me
