Thread: [Upgrading Accounts for 4 Members](#)

Proxies.tv - September 24, 2020, 11:51 am

Greetings All!

This thread is about upgrading 4 member accounts (from Registered to Leet (2x) and Leet to Uber (2x)) for free. The only requirement necessary is a brief paragraph from entrants as to why you want to be upgraded and how you plan to use your upgraded account. The 4 winners will be drawn by @Zeus within 48 hours of the start of this posting. Good luck to all of you and I'm hoping to see some well thought out paragraphs.

razzberry.crypto - September 24, 2020, 12:30 pm

I would like to be upgraded to a Uber account so that I may take advantage of all the features it has to offer. I just recently upgraded my Avatar Signature and soon my banner as well, so getting an upgrade to Uber would also be a great addition to the things I've just done. I'd also like to have an Uber upgrade so that I may set a good example and be a brilliant addition to the Uber group, and continue on this path of growth that I've been on this past short while.

Pimping - September 24, 2020, 12:54 pm

I would also like to be upgraded to UB3R as I could make currency exchange threads and have a sexy blue name and perks :) also I am very active and been posting about 10+ times a day and helping people in the ewhore section which is what im good at for money making. I will continue to be active and UB3R will help me if I want to sell anything on the forum thanks!

Fruitcake - September 24, 2020, 1:04 pm

I would love Uber to be able to find freelancing artist on here and not get scammed by going first for some custom work... I have alot of jobs to offer here on HF from things such as creative design. website construction, and smaller tasks ive paid users for in the past! I would love to be able to work smoothly without trust ever being a question on my side.

Either way you are dope for doing this for some members! Thanks man!

This is amazing. I would love to be upgraded to l33t in order to enjoy some of its additional perks like joining a group and help me become more trustworthy so i can get more work and be able to offer my help with coding and design to the other members on this amazing community.

Sk8eR_PR - September 24, 2020, 1:22 pm

Awesome thread. It is the first time I see something like this in HF but anyways I am not too active.

123 - September 24, 2020, 1:28 pm

Thanks for contributing to Community. Great chance for members to get a free upgrade. Wishing all the entrants good luck :)

Proxies.tv - September 24, 2020, 1:41 pm

A big "Thank You" for all that have stopped by so far. Spread the word of this thread and help other newer members have a chance at their upgrades as well.

Equiannan - September 24, 2020, 3:39 pm

Thanks for this giveaway! I plan to help HF by helping people with graphics designs and related field. Currently I'm learning towards on SEO optimization and hope to release my article soon to help out all!

Coding and designing work I think is pretty much always in demand. You may have a bright future ahead of you here at HF. :)

The more active you become, the better it is for everyone. Go out and meet the community and see what activities you might be able to get involved in.

New articles as well as tips and tricks in the seo field are always appreciated. I myself might release some of my encrypted redirect tactics in a near-future thread as well.

Shaggy - September 24, 2020, 5:00 pm

Starting off on this, I would like to access "Currency Exchange" since I can convert Paypal to BTC without fees and instantly also I am aiming to Increase my Post Length when making threads since I cannot cover some additional information. Also, I am looking forward to the discount on Paid Bump by Stanley to up my sales thread in the future. The ability to start my own bytes lottery is a big help too since I frequently get eggs but unable to raise them due to lack of bytes, I'd rather make a lottery

on them to gain bytes and invest it in sportsbook later on.

Skisuit - September 24, 2020, 5:06 pm

Thanks for hosting this giveaway!

I'll love to win a L33t upgrade as I'll like to share free methods/ebooks to other members. A L33t upgrade will be extremely beneficial as the inbox space for private messages will be a lot larger than a normal account, which makes it easier for me and other to pm me. I'll also be able to give +rep to other members, and most importantly, I'll ensure to remain active on this site before and after winning this award

soultech - September 24, 2020, 5:10 pm

Hi RNS...Thanks so much for a kind and generous thread, it's awesome :)

I'd like to enter for an upgrade too....

Reasons:

To +1 awesome people....I've met many cool people on here, many have been cool to me with advice, many have + pop me...and I'd like to be able to return the favour and thank them for advice, and being helpful, things they've given/donated me etc (this is the most important reason for sure)

To be able to access contracts on open disputes, and other pages, trust scan (whatever that is) to be able to better determine if the person I'm buying from is going to be genuine

On top of that..2 factor auth and the 150% bonus on bytes so can dono to people when they zero out from flipping all they bytes in chat lol

I'll prob get upgrade at some point, just other things taking priority cash wise at the mo....so if someone genuinely cannot afford it they prob benefit from it more

Ps...if I win, I'll send you a pic of my sexy left foot everyday for a week (honestly) this is completely optional and you can opt out lol (prob the best idea)

I'll let some others know in the introduction section, I'm usually there most days saying hi and welcome

Thanks again for awesome giveaway....well appreciated...love it

Seems to be a big demand on the currency exchanges. Its good to see that there are many suppliers in this area as most of the time its badly needed for many people.

I've a collection of ebooks that I have accumulated throughout these past few years regarding malwares analysis, networking, intrusion detection (firewall), programming, digital forensics etc. These ebooks have been extremely beneficial whilst I was preparing for my exams/gaining new knowledge. I thought it'll be lovely to be able to share it to other users that are eager to learn but may not have the resources to do so:)

I would like to get an Ub3r upgrade because I think Ub3r members are recognized as a helpful asset to the community and I want to be a part of it. I have been as active as i can over the past few years.

I always like to help other members. Ub3r gives access to some of the great features of hf like currency exchange, signatures and it does help with your projects.

Thanks for the contest OP. This will surely help members. Good luck to all participants.
