Thread: [Tomek Radomski has Disputed a Contract with taap \(2060848 \)](#)

Tomek Radomski - September 26, 2020, 1:46 pm

Disputed Member: <https://hackforums.net/member.php?action=profile&uid=2060848>

We had a deal with this user where we are dealing for my method and the MM is Zexi.

Our deal was first to let him use my method for 24 hours and then after those 24 hours if he had made profit Zexi would send me the amount we agreed for. Therefore I was generous to change the terms for him and agreed for him to first earn \$300 and then Zexi send me the money.

But the user taap is breaking the terms of our deal and refuses to use the method saying he doesn't have time to do that (when it takes no more than 20 seconds), yet the user has time to play games for over 2 hours.

My request is for either the user to keep his part of the deal and continue to use the method or Zexi sends me the full amount and he can use it whenever he wants

Here are the proofs he is making money with it

Proof that it's his official Discord linked to his profile:

Don't mind this dispute, user got exposed.

He's liar, scammer and most likely multi. I'm waiting staff to investigate his account and the others as his first 3 customers who gave their review are only few days members in this forum.

Unlikely an MM is going to release funds to you with an active dispute yourself, my good sir.

Zexi - September 26, 2020, 4:35 pm

The exposing thread doesn't help at all. I have seen nothing but losses with this member's method but i have to respect both sides as i am their middleman. The contract is saying that i should release once taap is in 300\$ profit.

[taap](#) isn't in 300\$ profit, which means you have no rights to the money Tomek.

The method is gambling, user will have to gamble his money and possibly lose to try and earn those 300\$.

I saw a screenshot about him earning 50\$ but nothing else, that doesn't earn your claim for the full amount at this point.

User was aware that method is gambling but he wasn't aware that you'll lie about the method. In thread I clearly asked if method is about wagers and prizes you said no and it's 100% clearly that it's for this thing.

Zexi should give the money back to taap and tomek should get banned. The only "vouches" are from 3 new members possibly your multis who are few days in this forum.

Yeah nah bud that's not how it works. Zexi is simply a MM to hold the funds for the deal, any problem between you and the other party has to be resolved between you too without the intervention of the MM unless stated otherwise in the contract or agreed on by all parties.

You should've put a date limit in the contract so he has to fully use the method by that deadline or the funds would automatically be sent to you. However, you didn't write that, so that's ON YOU.

Zexi don't have any obligation to force the hand of anyone, if he does it will mean he's taking 1 side of the 2 parties when he should be neutral.

The contract terms are as the following:

Quote:I will send the funds to MM. As soon as he confirms the funds received, the seller will set me up with the method. I will then run the method with an \$200-300 initial investment (safe way) and when I've earned \$300 in profits, the MM will release funds to the seller.

Zexi has successfully received the funds, he confirmed that he received it. He did his part. Now it's on you and the buyer to report to Zexi that the \$300 profit has been met so he THEN releases the funds to you (the seller).

Now that we got that out of the way, you and [taap](#) gotta agree on a deadline for him to fully use the method and get the funds released to you if it get past that deadline. If not, Zexi CAN IF HE WANTS TO decided a deadline duration himself. Otherwise, zexi will just have to hold the funds till you both figure it out.

Imo the MM should be held responsible for making someone do the method.

If they agreed for funds to be released when he hits \$300 profit, and he's up \$50 and is too scared

it doesn't matter.

He has the method (script), once MM gets funds you are locked into that deal, you can't just refuse to continue the deal after one side has already completed their end of the deal, just because you are suspicious now?

Unless there is something fundamentally proving that the script does NOT work then he should continue doing so, he knew it was gambling and he can't now say "i don't wanna continue causes its down to luck"... like what

Actually I can. Method clearly states to be "taking advantage of casino bonuses". The seller wants me to run a martingale system for about a week (or more?) before I 'unlock' the casino bonuses. This means I am actually not taking advantage of any bonuses to make money. So basically I could just wait this out without using his martingale system as I do not have an account on the website with unlocked casino bonuses.

No wonder you have 2 negative b-ratings, you pay for shit and complain and try get your money back + the method for free.

Sakhill - September 27, 2020, 1:22 am

Well, that's it you should let it run, I use same MM for same deal, just make different terms.

If you agree that you will run, just run it.

I was agree to run it with 100\$ up to 100\$ profit if not MM will return me money, and was like that,

send proofs of bust to Tomek and I was get money straight away back, didn't have any problem.

taap - September 27, 2020, 1:24 am

1. Method clearly states to be autopilot & to be taking advantage of casino bonuses. I can start off by saying that the method is as the user Deathy explained, a martingale system. The seller of this method, Tomek, states that I'd have to use this system for about a week before I unlock & be able to use the casino bonuses.

<http://prntscr.com/uon3cu>

2. Shouldn't AUTOPILOT mean AUTOPILOT? I even asked Tomek if I could leave it & run it overnight which he said I can - <http://prntscr.com/uon4vi>

Seller attacked me as soon as he noticed that my account wasn't placing bets on the website/game. Once I was away to eat lunch, the other I was at the gym. I was not available to leave everything I do IRL just to go home and restart this.. which again.. should be AUTOPILOT.

Last time he got on my nerves and yeah, you can read the chat between me and him on discord last night, check time stamps aswell.

<https://prnt.sc/uohyrj> , <https://prnt.sc/uohyvi> , <https://prnt.sc/uohyzm>

So to summarize this: Method clearly states it being taking advantage of casino bonuses, but I have to use his autobet settings (not even script) for a week before I unlock these bonuses. It's a martingale system.

Method clearly states that it's autopilot. But according to the seller, Tomek, I should be available 24/7 at my PC to monitor it in case it stops, so that I can restart it. If I don't do this, I don't earn and then I break the terms of our contract (?). To explain this for any kids, Papa Taap basically needs to take some snow (adults only) and stay up 24hours per day for a week before he unlocks the casino bonuses. Method requires this, life's not easy, let's move on.

* I am away from my PC and am not able to monitor the method running or if it stops. It's weekend at 10:25pm and I am hanging out with an old friend.

I then get attacked & threatened by the seller, Tomek, that I break contract terms. So he wants me to drop everything I am doing, take a 20minute drive home & restart his method - which should've been autopilot AND should've been a method taking advantage of casino bonuses but all I'm running is a martingale system.

EDIT:

Just wanted to address this: "But the user taap is breaking the terms of our deal and refuses to use the method saying he doesn't have time to do that (when it takes no more than 20 seconds), yet the user has time to play games for over 2 hours."

I never refused to use the method, I never said I don't have the time. What happened is that I was running it and then left to meet & hangout with a friend. Then it stopped and then seller wanted me to go home to restart it. It was around 10:20pm last night. That's not reasonable at all.

Also this: "yet the user has time to play games for over 2 hours". I didn't. I was away hanging out with a friend. I clearly told the seller that I am botting WoW, this runs on autopilot and doesn't require me to play the game myself or monitor the PC 24/7. <http://prntscr.com/uons0m>

Nah he shouldn't. He was brought in the deal for the sole purpose of holding the funds while both parties conduct their deal.

I think you skipped this part of my post

Quote:Zexi is simply a MM to hold the funds for the deal, any problem between you and the other party has to be resolved between you too without the intervention of the MM unless stated otherwise in the contract or agreed on by all parties.

Even the contract terms state that Zexi is just there to hold the funds while the seller and buyers do the deal. Why would he be held responsible for any miss-management, miss-communication, bad contract terms, or dispute between the 2 parties? Or in this case, not agreeing on a deadline date before starting the deal to make sure taap use the method.

His job is to hold the money, not to babysit users who don't know how deal. Anything beyond holding funds/confirming funds/releasing funds based on the contract terms is not his job, they gotta figure it out themselves.

Zexi can HELP and TRY to fix any problem between the seller and the buyer, but he's not obliged to. He can literally just sit back, and keep holding the funds till they resolve it.

Users tend to get lazy when writing clear contract terms, which always lead to either vague or missing terms, which then end up in a deal dispute like this.

Zexi can HELP and TRY to fix any problem between the seller and the buyer, but he's not obliged to. He can literally just sit back, and keep holding the funds till they resolve it.

He's an awful middleman if that's the case.

I could use him, state funds aren't to be released until I complete the method, 6 months later he's still holding funds cause technically I haven't completed the method yet?

Yeah no, any decent middleman will look for a solution, that's either releasing funds if the buyer is

being uncooperative, or sending funds back if the seller is.

taap - September 27, 2020, 1:36 am

Also just to clarify - I knew about the expose thread of the seller Tomek, but I still kept running his method. Only reason for me stopping now is because of the seller tried to force me to monitor my pc 24/7 and not be allowed to leave my home in case his autopilot method accidentally stops.

<http://prntscr.com/uondfn>

<http://prntscr.com/uondu3>

Our contract does NOT state any terms that I need to take drugs to stay awake 24/7 at my PC to monitor and restart the method in case it stops.

Also it does NOT state that I am not allowed to leave my PC/HOME to see friends on a weekend at 10pm.

It also does NOT state that the seller, Tomek can force me to do what he wants, when he wants, or be a dick and try to threaten me.

How does it not comply with your terms? Your terms are very simple..

You send funds to MM, he setups up the method for you and you then run the method until you reach \$300 profit. Correct?

I haven't bothered to read the full thread but from what I gathered you got to around \$50 profit, and decided you can't bare to have the chance of losing \$200 (even though you knew it was gambling) so are trying to get out of it and get your money back

Edit: I also find it hilarious how you are trying to flame him for having a public method but your Instagram Ban service uses a public method...

Correct. So first of all, I should be running a method that takes advantage of the casino bonuses right? I yet haven't received an method or resources for the method to do this. All I am running is a martingale system.

Second, method states to be autopilot, but now the seller requires me to either be monitoring my PC 24/7 in case the method stops and I have to manually restart it, or I'd have to atleast be available 24/7 in case it stops so I can leave everything I am currently doing in my life just to go home and restart it, MANUALLY.

Edit: Wait what? More fufu my guy. Where did I flame that his method is public? I didn't mentioned this even once LOL.

THIS IS WHY I DONT WANNA DO DRUGS TO STAY AWAKE 24/7 TO MONITOR THIS METHOD. IT'S BECAUSE YOU END UP STUPID LIKE YOU! PROOF RIGHT HERE KIDS; TAKE A GOOD LOOK

Honestly I can't bear to discuss this even further with you. I don't know why you are changing the subject... you were talking about your contract terms, not the product description.

If anything YOU are not complying with the contract terms.

It probably does benefit from bonuses, but if you bothered to ask him or have used casinos before you'd know you don't get bonuses for free, straight away. You need to hit wager goals to unlock certain bonus rewards. Not to mention, you KNEW it was to do with gambling, its plastered everywhere on the thread, but now your scared to do it because its a method of betting..?

Autopilot means, the process of generating the money is done for you, meaning you don't have to sit there and do work for it.

Autopilot does NOT mean it will run 24/7/365 with 0 human interaction lol

Edit: just admit your scared to lose a few hundred and regret buying a GAMBLING method lol

Yet another stupid fucking argument. With this: "you were talking about your contract terms, not the product description."

Isn't the method included in the contract? Or does contract just state that I send MM funds to receive nothing from seller. Then seller will send me nothing and I will then set up nothing. After I set up nothing, I will run nothing. After I have made \$300 profits from nothing, MM will then release the funds to seller for selling me nothing. I also have to monitor nothing, for 24/7, because in case nothing stops, I have to manually restart nothing.

How will we be able to know when I've made \$300 profit from nothing though? Where can we see this statistics hmm

Edit: If you cared to read my posts, I even told you that after I knew about this shady seller and his method, I kept it running. Only reason I stopped using it is because he tried to force me to leave my friend at 10pm last night to go home and manually restart the method and if I didn't he threatened to open a dispute on me. Every MM tend to help to resolve or find a solution to dispute of a deal they're involved in. That's them trying to be helpful and get the deal to finish, but not their job.

My issue is you and OP saying a MM is obliged and responsible to resolve this dispute, when he's not.

MM can't modify contract terms nor write them beyond their MM TOS. Yes, if you don't write clear

contract terms, then that's on you, not the MM.

Thinking that MM are obliged to force a deal is just stupid.

MMs always end up to have to take the risk, put their reputation on the line, and make the final decision. If he makes a bad, everyone will just start accusing the MM of being a scammer or not legit, and then goes their MM reputation.

So yeah, that's not an "awful middleman", it's just people trying to throw the blame to someone else other than themselves.

Check my first reply on this thread, i explained that it's OP fault for not having clear terms, and OP himself agreed that it's his own fault for not setting a deadline date.

Here's 2 simple examples of how i add terms for time deadline in contracts:

Sakhill - September 27, 2020, 2:26 am

If you still running method then everything should be fine, just regular take your profit out and you should be fine with these.

Also check if autobet stop that you don't have high base bet. If you really invest 200-300\$ and running autobet on safe settings you should be fine.

I agree with you, there is no chance that u can monitor that 24/7 and there is no one who can force you to do that, but you can install app on your phone, connect rdp and check from time to time, and if it stops, it's literally take you 1min on the phone to run it again.

It's a lot of bollocks in last 24h about this method, and now when I see all these chat screenshots I start have feeling that Tomek just want take much money as possible out and run away from HF. Hopefully I'm wrong, but yeah that's doesn't mean that you can stop run it and say that you want money back, in that case mm should send him money, but if you continue with running it, all good.

Hopefully that will get resolved.

imma be real you are a headass if you think im blaming the middleman, im saying he's a terrible middleman if he refuses to get involved with disputes.

Other sites that have reputable middlemen, will post a dispute, and whatever staff say they will go with and refund / release funds. Obviously that doesn't work on HF, so I'd expect they would be competent enough to help solve it.

I use same middleman with Tomek, and everything was fine.

Terms are unclear, and I'm 100% sure that middleman was told for both sides to put all possible information in contract (as he said to me), but they didn't.

There is nothing what middleman can do right now, he just can hold funds until that dispute is over.

But from things what I can see, and which are in contract Tomek will easy win this dispute, as they didn't put any special terms into contract just these:

"I will send the funds to MM. As soon as he confirms the funds received, the seller will set me up with the method. I will then run the method with an \$200-300 initial investment (safe way) and when I've earned \$300 in profits, the MM will release funds to the seller."

So clearly Tomek have his right to get money once when taap make 300\$ or bust (in that case Tomek ToS in thread said that he will refund).

But there is other thing, taap can run it for few months if he want as they didn't put how long he have to run it.

So no point blame middleman as this is not his problem.

Only way how I can see that this is resolved that half money go back to seller and half to buyer, or simply taap has to finish his task and run it until he win money or he bust, but taap was clearly say that he will not run it, so if he refuse to finish contract money should go into Tomek's way.

Screenshot 2: <https://prnt.sc/uohyrj> - Seller is complaining about you not running to script. You're complaining and saying it's not autopilot if you have to monitor it 2/7. Screenshot 3: <https://prnt.sc/uohyvi> - Seller even offered you to put your account on RDP so you can run it 24/7 rather than only overnight.

Screenshot 4: <https://prnt.sc/uohyzm> - Seller said that you deposited less than \$300. Can you show proof of how much have deposited into the site?

(Sep 27, 2020 01:24 AM)taap Wrote: [\[CITE\]](#) So to summarize this: Method clearly states it being taking advantage of casino bonuses, but I have to use his autobet settings (not even script) for a week before I unlock these bonuses. It's a martingale system.

Method clearly states that it's autopilot. But according to the seller, Tomek, I should be available 24/7 at my PC to monitor it in case it stops, so that I can restart it. If I don't do this, I don't earn and then I break the terms of our contract (?). To explain this for any kids, Papa Taap basically needs to take some snow (adults only) and stay up 24hours per day for a week before he unlocks the casino bonuses. Method requires this, life's not easy, let's move on.

* I am away from my PC and am not able to monitor the method running or if it stops. It's weekend at 10:25pm and I am hanging out with an old friend.

I then get attacked & threatened by the seller, Tomek, that I break contract terms. So he wants me to drop everything I am doing, take a 20minute drive home & restart his method - which should've been autopilot AND should've been a method taking advantage of casino bonuses but all Im running is a martingale system. Tomek said multiple times you you don't have to monitor it 24/7. [Tomek Radomski](#) how often does he need to check on the script if it stops working?

(Sep 27, 2020 01:24 AM)taap Wrote: [\[CITE\]](#) EDIT:

Just wanted to address this: "But the user taap is breaking the terms of our deal and refuses to use the method saying he doesn't have time to do that (when it takes no more than 20 seconds), yet the user has time to play games for over 2 hours."

I never refused to use the method, I never said I don't have the time. What happened is that I was running it and then left to meet & hangout with a friend. Then it stopped and then seller wanted me to go home to restart it. It was around 10:20pm last night. That's not reasonable at all.

Also this: "yet the user has time to play games for over 2 hours". I didn't. I was away hanging out with a friend. I clearly told the seller that I am botting WoW, this runs on autopilot and doesn't require me to play the game myself or monitor the PC 24/7. <http://prntscr.com/uons0m>

He deposited only \$200 when he was supposed to deposit \$300 but I wanted him to be chill while using it so I let him deposit only \$200.

He is supposed to check it every few hours to see if it hasn't stopped.

In total he made between 50-80\$

He didn't use this for over 5-6 hours in total, no matter that he bought it over 48 hours ago.

I have told him I will monitor it for him to see if he is playing as I'm pretty much active the whole day. He said thank you.

The user says he have no time to start it (which takes 15 seconds) but have time to play WoW for over 2 hours in the same time I ask him to start it.

He is clearly evading the contract terms.

Also check how he is trying to get out of the situation now, saying this is not a casino bonus method. But over 36 hours he said nothing about it, just after the ridiculous thread by this guy Deathy came, he started abusing me

In order to take advantage of the casino bonuses you have to wager money, yet you decline to wager money and use the method, therefore you decline to cooperate. You are breaking the terms of the contract and even if I don't get any money from Zexi, I will be really happy to see that you will not receive your \$400 and will have a deal dispute and neg b-rating on your name as you are low quality scammer and you deserve it

I was totally fine with doing this at start, but after you threatened/tried to blackmail me into having to drive home just to restart the method or you'd open a dispute.

Now we're here, have it your way.

Method states to take advantage of casino bonuses, which is where I'll make the profit. I am not able to make profit from this because I do not have the resources required to take advantage of the casino bonuses.

You will make the profit, you just have to complete the steps needed to unlock the VIP program which is something you deny doing and therefore you want to scam me

Okey so for me to profit from the actual method, I first have to get my account ready and unlock the VIP program, then I need to run the actual method of taking advantage of the casino bonuses?

No, you will profit mostly from the autoplay, bonuses are extra income for while you are using the autoplay :)

[Tomek Radomski](#) Does he have to run the script for week to meet the requirements to claim the bonuses or just couple hours only or what exactly?

Screenshot 1: <https://prnt.sc/uon4vi> - Seller is confirming that you can indeed run it overnight without the need to monitor it which should qualify it to being autopilot as from i understood, you have to only run the script and leave it run. correct?

Screenshot 2: <https://prnt.sc/uohyrj> - Seller is complaining about you not running to script. You're complaining and saying it's not autopilot if you have to monitor it 2/7. I'm confused here, the seller already told you that you don't need to monitor it 24/7 and you simply need to run the script, so what you complaining about exactly here?

Screenshot 3: <https://prnt.sc/uohyvi> - Seller even offered you to put your account on RDP so you can run it 24/7 rather than only overnight.

Screenshot 4: <https://prnt.sc/uohyzm> - Seller said that you deposited less than \$300. Can you show proof of how much have deposited into the site?

Tomek said multiple times you don't have to monitor it 24/7. [Tomek Radomski](#) how often does he need to check on the script if it stops working?

Alright so it's been 2 days since the contract was started, can you tell me for how many total hours have you ran the script for? How much have you deposited? How much have you made from it so far?

It's not a script. It's settings for autobet on a game on the casino website. He wants me to run this autobet for a week (or more) before I unlock & be able to take advantage of the casino bonuses.

He did confirm that I can run it overnight, but sometimes it stops and I have to manually restart it again. So no.. even after I run it, I need to monitor it to make sure its running. If I don't monitor it and it stops, then I won't be running the autobets and therefor not run the method / make any profit/losses.

Seller said it was autopilot as you can see, he confirmed I can leave it overnight. Last night I went to see a friend, at around 10pm the seller attacked me saying "You're breaking our contract terms for not running the script. You need to run it or I will open dispute blablabla." - Check screenshots for full convo

So it was running when I left home, after awhile it had stopped and the seller noticed it so he contacted me. I didn't feel like leaving my friend, on a saturday night, just to drive home to manually restart it. So I told him I can't do it, several times. He threatened with opening a dispute and here we are.

Seller offered to set up the autobetting settings on my account on a browser on an RDP. I wouldn't trust even \$1 of my money on the account if he had access to it. So this is not an option.

Contract states this: "I will then run the method with an \$200-300 initial investment (safe way)". It says \$200-300, not "exactly \$300". I went with \$200.

Here's our convo about it. As you can see, he says "Start with \$200 if you want" and when I confirm that I deposited \$200, he sent me the settings to use: <http://prntscr.com/uoggi6>

How many hours I've ran the settings for & how much profit I've made is irrelevant until seller delivers the method or resources required for me to make MONEY from taking ADVANTAGE of the casino bonuses. So far I haven't been able to take any advantage of any casino bonuses.

You are clearly abusing the use of a MM in this situation. Anyone can clearly see you don't want to use the method you've paid for and you are just offering excuses. Ofcourse I got mad that you don't want to spend 15 seconds to run it when you can spend hours playing games at the same time.

I don't trust you at all that you've been outside with your friend as I clearly have a proof of the time I wrote you that you were playing games

Therefore its your own choice to continue doing the method or not, Zexi should hold the funds until you take actions. Until than you will have \$400 in him and this dispute opened on you

It's so stupid because I wasn't even playing lol.. as I've mentioned and told Tomek like 23.75 times now, I was botting.. but honestly, I could've even been playing WoW, then left it open and went away from PC / my home. If the game is open it would still say "Taap is playing WoW classic".

Bro, I honestly don't care what you are doing in your free time.

We had a deal, I kept my part, and you did not kept yours !

From over 48 hours since you have bought the method, you haven't run it for more than 8 hours total (this can be verified by taking a look on your profile which I can share with anyone interested here).

Therefore from now on you can run it or not run it - its your choice. Just your \$400 will be held by Zexi forever and you will have a dispute opened on you

Your part was to deliver an autopilot method. It was running when I left home yesterday then it stopped, so then I manually have to restart it. Do you understand what autopilot means? I'm not saying that it should run flawless 24/7/365, but me having to restart it several times a day and monitor it to know when I need to restart it.. how does that make it autopilot though?

EDIT: Also yeah, I ran it for as much as I could the first day, but since you opened the dispute I stopped running it. I need to run for a week or more to get the casino bonus advantages. This means I have to monitor it every day for a week and restart it several times a day just to unlock the bonuses.

But yeah.. you opened a dispute, there's no reason for me to run this until this gets solved :)

Bruh, restarting it takes 15 seconds.

Autopilot means you don't have to put manual work in order to earn.

By your theory, even cashing out the profits which has to be done manually will mean the method is not autopilot...

Restarting it may take 15-20 seconds, sure. But I'd still have to monitor it to make sure it is running. What happens if I start it at night before I go to bed, then it stops after an hour and I sleep for a total of 8 hours. That means its not running for 7 hours while I'm sleeping. How do I restart it now then when I'm sleeping?

I'll go back to my previous statements, do you think it's better that I either set alarm clock every 10 / 20 minutes while I sleep to go and check if its running? Or should I buy lots of drugs that helps me stay awake?

Should I also maybe book an therapy appointment in case I need it after getting attacked by a psycho (you) with threats of opening disputes when the autobet stopped and I was not at home to monitor it?

How would that work with the therapy though? Should I have an laptop with me in the therapy session to run the autobets and make sure its running & didnt stop?

Every time you comment, you surprise me with how stupider you get. Why would you lie in your thread and say it's autopilot if they need to monitor it and/or restart it frequently? If I buy something expecting it to be autopilot, means I don't need to do any of that bullsh*t and it should work AUTOMATICALLY.

I ran it for several hours and made some profits. I did all of this and you're saying I refuse to use the method?

I have now STOPPED using the method because you opened a dispute on me. And the reason you opened a dispute on me was because I didn't have time to restart the method yesterday when I was away. You got mad because you're stressed, you don't have much time to wait. What you need is exactly this:

Have me (taap) run the autobet settings for as many hours as possible, as fast as possible so that I'll make \$300 as fast as possible in profits so that Zexi releases funds to you. Why? Simply because you don't have much time, soon you will be fully exposed and then you will exit scam and everyone (even Vitaly aka Mr.Can't-Open-Doors) will realise what a low life trash you are. Every few hours? The first time it stopped for me was about 1 hour after I ran it. After I restarted it, I kept it running and I went to the gym (about a 10-15 minute drive), when I was outside you PM'd me saying it stopped again. Yes, I will start using it when you send me a method that is AUTOPILOT & TAKES ADVANTAGE OF CASINO BONUSES. These are your words, not mine.

Whenever you've sent it over, I'll be more than happy to spend time to set it up & then run it. As long as it's autopilot and as long as it's taking advantage of casino bonuses.

I think you are not aware how MM works

MM is supposed to protect both parties involved in the deal, therefore MM can't take side. MM can only help for the deal to be done properly as the contract terms say. Therefore I was dumb for letting the kid not set a time frame on the contract. What Zexi can do on this point is hold the money as

long until taap decides to either use the method or not. But taap should not be refunded at any cost as he is breaking the contract terms. Therefore his money will stay in Zexi and this dispute will be opened against him !

Clearly you're still misinformed. Your contract terms and method you were selling in your thread is based of false information.

1. It's not auto pilot.
2. Anyone and their mom can take advantage of casino bonuses for free on any site.
3. It's not auto pilot.

You sold a false prophecy. Now you're being called out and using excuses. Whole point of the middle man was to hold funds till I get the product that was promised. And clearly your product isn't as promised.

P.S. I've done more deals with MM online than you can possibly dream of. So if you feel Zexi is in the right to hold the funds when you didn't deliver what was promised then again, you're an idiot.

You avoid using the method. We have a deal where you have to generate \$300 profit before I am being paid. You made about \$80 in profit and stopped using it, how can you make the rest \$220 so I can be paid when you are not running it ?

Your entire thread was false. Your method isn't auto pilot and there isn't any casino bonuses to take advantage of unless someone spends the minimum to hit VIP level, which in your method case is \$10K according to you. Bonuses are normal in any casino vip levels, so not sure why you made this a selling point.

I'm glad your method got brought to light before others get scammed.

\$400-500 to run a semi auto pilot gambling method? You sure knew you were ready to scam when you posted the sales thread.

And as I clearly told you yesterday. I was not at home. I couldn't restart it. That's it.

All you had to do was to accept that fact and I would've restarted it + ran it as soon as I got home. End of story.

Instead of this happening, you decided to threaten me with opening a dispute which means, you

wanted to force me to take a 20 minute drive home just to run it. Which would mean I'd have to leave my friend on a saturday night, which I promised I'd hang out with for a few hours. This made me realise what a clown you are and that you are indeed looking to exit scam.

So now I decided that I will only follow the terms that our contract states. As soon as you deliver an autopilot method which takes advantage of the casino bonuses, or if you deliver resources required for me to do this. Then I will set it up & run it on autopilot. Nothing more, nothing less. Until you deliver your part of the deal, I will not be able to deliver my part of the deal (which is to make \$300 before MM release funds to you).

Okay, I trust you now and I'm feeling sorry that I opened the dispute but you clearly told me you are not on PC, not that you are outside. If you said this to me I would totally understand you as I love the weekends myself and spending time with friends is precious.

Shouldn't have to prove to anyone what you were doing. His method is "autopilot". Meaning you can leave and do what you have to do and it will work without OP babysitting you.

Yes exactly, he just had to run it every few hours which takes 10 seconds.

But I waited him over 7-8 hours to run it :)

So what if he took 7-8 hours? He should leave what he was doing for 10 seconds because you claim an autopilot method which isn't?

Your method is semi auto pilot. Not autopilot. Your contracts are invalid just as your sales thread.

If you kept your thread with the facts and transparent to people you sold too I wouldn't be here commenting. Your method is semi auto pilot and requires 10k investment to unlock the casino bonuses to take advantage of. Whether you like it or not that's the fact.

Jesus what a huge drama :D

There is huge discussion about autopilot and semi autopilot, there is no clear info's what autopilot method is meaning, as there is no therm about that, autopilot is in car, airplane... and even with that you need human factor to do it, so it's fucking stupid that in 5 pages you talk is it autopilot or not, I

can say that is semi autopilot as you have to check everything out few times a day, taking manually profit out, but really that take you 10 min daily maximum, you can install rdp app on your phone and in few clicks you can check everything, no one can say that you don't have that much time.

But when I look all that things here you are right about one, that you don't take advantage of casino, I mean he should tell to all of us that you have to gain 10k\$ before take advantage of casino.

So at the end of the day you pay for info that this site have casino bonus which can generate you nice money, you get settings for autobet, even you can do that by yourself and 19.8x is risky and I use different settings much safer and that's it, and atm you have to pay for that 600\$ what is ridiculous.

I've been told for Tomek that this is too much and that drama will happen, and that I would set price of 100\$, but he said that he don't care and that he will raise, and there we go.

When I think better about that, and put myself into taap situation I would do the same.

You fucking blackmail him, make pressure and threat with dispute, there you go, you got dispute.

He have all rights to get full refund as you didn't deliver what is promised in your thread, as you was dick he have rights to be bigger one and fuck you up in legal way.

Okay, I have a proposal for you.

As the autobet problems were fixed with the site, I will do this.

Going to give you a VIP enabled account on the site, you will be able to check the email password enable 2FA

There you have to run it with the \$300 your investment and the profit you made too. Once the remaining profit of \$230 is reached, funds will be released to me by Zexi.

Yes there is. Account registered from your IP with your original email/pass etc. will always be available to take back. This kind of security is necessary for any 'legitimate' casino/betting site. This kind of security is even available on social media accounts and it's for a fact even available even for games like WoW.

If you're talking about how much money I've made from the autobet settings that he sent me (which isn't related to the contract because it's not autopilot or taking advantage of any casino bonuses). Then I've only lost money. First few hours (8-10 hours) I made roughly \$50-55. Then I busted, so I'm actually -\$200.

Alright so from these 3 screenshots i can see that deposited \$200, your current balance is indeed \$50, the most recent page shows that all recent bets were a bust.

That last screenshot shows that you bet-ed a total of about \$800-900, which means you made some couple big win. However, it also shows that from the 5800 bets made, only 277 were wins

which is like 5% win rate? I'm not a gambler so idk the usual odds for such gambling sites, but we still can see the configuration given is not winning one.

Regardless, considering that and the fact OP has like another 5 other DDs opened on him regarding the same exact method/sales thread, i would offer the following ultimatum:

if [Tomek Radomski](#) doesn't resolve all his other DDs in 24h from this post, [Zexi](#) can fully refund you. If he someone resolves them, then we gonna have another talk.

well what did you expect when there's about 150 posts of shit posting which didn't help in resolving this DD by 1%.

Also, if you haven't at the start of this thread, some were siding with the seller, so if the MM released the funds early, you would've complained as the seller were rushing the MM to release the funds, but now it's the you who's rushing the MM to release the funds to you. All the cards have to be shown on the table before taking a decision. Be patient.

Can you give me 3 valid reasons for you to claim the funds?

All your other DDs are about the same exact method saying it doesn't work. So how are you (the seller) the one being scammed exactly?

Taap didn't even make any profit, he deposited \$200 and now his balance is \$50 which means he lost \$150 from the configuration you gave him which clearly doesn't work.

DD 1: <https://hackforums.net/showthread.php?tid=6112028>

You didn't even respond to this one.

DD 2 : <https://hackforums.net/showthread.php?tid=6112024>

Your response to that one was " he scammed me" with no proof or anything to back that statement.

DD 3: <https://hackforums.net/showthread.php?tid=6111995>

Buyer lost all his funds he deposited in the game like taap, your response? "You broke TOS" with no clarification or proof to back it up.

DD 4: <https://hackforums.net/showthread.php?tid=6111787>

You told OP that the only way you will try to reaolve it is if he close the DD, knowing that if he close it, he won't be able to open it again.

So as you can see, 4 Deal Disputes excluding this one where you didn't take any steps to resolve nor even show proof to back your claims. I don't see you helping yourself at all unless you're exit scamming or don't know how to do business, either way you should be on HF if you don't know how.

taap - September 29, 2020, 9:29 am

I've received several messages from people both on HF and outside of HF (discord) that they don't understand why I have to fight for my money. Even though I agree with them, I still respond with "It's a deal dispute with MM included, it has to go down like that". I'm uploading everything that is being requested. I even uploaded proof from my PERSONAL SNAPCHAT to prove that I was not at home the night when Tomek went all crazy on me.

I've uploaded proof to show that I lost money using his method, and when it finally seemed like this was over and he exit scammed, (you can see that I would've received my refund from MM after 24 hours if Tomek didn't resolve his other 4-5 disputes), and now he comes back with another desperate move to try and get me to look bad by faking proof & hoping to get the money from the MM? Honestly I'm done. I've now uploaded any & all evidence that I have, I can not upload more evidence because there is none. I am no magician like Tomek and be able to find evidence that has nothing to do with this case.

With this message I just want to upload one last evidence, this is a recording of mine & Tomek's discord conversation, where u can clearly see that I have no association of the stake.com account that he claims is mine. With this video you will also see that before he uploaded his "MAGICAL PROOF" on this thread, he messaged me on discord and tried to blackmail me. You can find the video here - <https://gofile.io/d/Cxhuik>

To Flavoral & Zexi - I'm sorry for wasting your time. I could've easily ignored Tomek's desperate ways to scam, and we could've avoided all the shitposting.

I hope you've received enough from me now to realise what's going on here & to make a fair decision. I guess I'll have to accept it whatever it may be.

I'm done with this stupid timewasting clown Tomek. Even if you get \$1 out of this, Karma will get back at you!

Idk why we even still talk about it.

User lied about his method, I asked him over here in his thread if his method is about wagering and taking prizes from wagers and he clearly said no:

Spoiler ([Click to View](#))

(Sep 22, 2020 05:11 PM)Decentralized Wrote: [\[CITE\]](#) 1) First of all this method works at stake.com or primedice.com(as I see from your screenshots) and you have to be OVER 18 to use these gambling sites. Also you can't use these sites many times cause of region, it's not allowed in US and other countries.

2)That method has to do with the platinum accounts and the "giveaways" that site gives to those who wager good amounts.

3)Even if you gamble 0.000001 btc per round at 1.01x (98% winrate) you'll lose many \$\$\$ while you're trying to get the top wagers on the site.

4)Top wagers for the "giveaways" are couple btc so probably you won't be able to make the number which is required to get the bounty. And if you do you'll lose around 200-500\$ dollars probably while you're trying.

5)If this method worked as you say you would just make tons of accounts on these gambling sites and you would be millionaire.

6)Plus selling 3 copies within few hours from the time that you posted the thread to guys who joined literally 2-3 days ago (Join Date: 09-19-2020) and all newbies with no contracts seems sketchy.

In all the disputes that users opened against him he says that everyone break his T.O.S. and he won't give refund. He explained his T.O.S VIA DISCORD AFTER USERS PAID HIM, when clear T.O.S. in thread is "EARN OR REFUND".

The only 3 users that VOUCH FOR HIS PRODUCT. Are 3 newbies accounts that are few days members in this forums.

It's super obvious that user is multi and account buyer.

could of easily deposited on another account, lost the \$200 on purpose so he can get \$400 back

This thread is a whole 15 page jumble of "he said this" garbage. OP should just give it up, no money lost out of his pocket, just a method that obviously doesn't work well after reviewing your deal disputes.

Perfect example of why everybody should be using a MM for high amounts when possible.

anyone else notice the obviously fake contract from a new account with only 1 b-rating? brand new member, within an hour of purchasing already made profit but didn't have to do the week long setup that OP is talking about, and never came back to give us updates like he said he would or anything. Just ONLY bought your product, was brand new to the forum but used the contract system correctly, then just left the forum?

how did this guy make profits within an hour of purchasing but you told this other member it'd take a week to set up and you'd have to keep following up with them?

Everyone who bought the method can confirm you can make profits even after 20 minutes of using the method :)

You mean every multi can confirm that you can make profits with your method.

Only members who joined few days ago in this forum and made contract with you can confirm that they made profit.

Also user changed username and password 1 week ago (before he makes the post).

This is like cheating in court, not acceptable

In a court, with this amount of shit posting, half/vague proofs, the case would've been dismissed.

However, if you want to play court, let's go. Let's start by examining your marketplace activity.

1. You have 4 other DDs regarding the same method and sale thread.
2. Blackmailing [taap](#) to get him to pay \$100 for you to close this DD and remove the negative B-Rating - <https://prnt.sc/uq11et>
3. You admitting that you're happy that 2 users who bought from you lost money - <https://hackforums.net/showthread.php?tid=6112480&pid=60231165#pid60231165>

Those 3 points alone would convince a "judge" not be on your side, and rather on taap's side.

Now let's talk about the method:

1. It's not fully autopilot. But we didn't care much about it as long as it's actually profitable.
2. It takes up to 1 week for a user to get into VIP to be able to claim the casino bonus which is the core part of your method.
3. [taap](#) provided multiple screenshots showing that he deposited \$200, and lost \$150 from it in less than 48h. So did another user who lost everything in another DD. Which means that it's not profitable.

Is that enough? Or do you want to continue to play court?

The dates between contract - blockchain payment <https://gofile.io/d/50D6UP> - Stake account creation date / funds amount <https://gofile.io/d/hLOfhI> - and other screenshots of bets all add up.

So unless you have some clear solid claims to back you up, i'm still with [Zexi](#) refunding [taap](#)

And how about this, if somehow you're able to revolve your other 4 DDs and prove that you're right in them, i will personally send you \$150 BTC/ETH. That shouldn't be hard for you if you're not a scammer or lying am i right?

The only reason i was prolonging my decision is because i was waiting on enough proof (which was really scarce) and i was actually giving a chance to Tomek, even though he has 5 open disputes. I was in the middle of the deal for both sides safety. But the fact that he wasn't doing anything about his other deal disputes and was just trying to win one where he could get more money pushed me even more towards refunding taap.

Thanks to the shitposters who made this take way longer and made it infinitely times harder.
