Thread: [4 Member Upgrades Contest](#)

Proxies.tv - September 28, 2020, 8:01 am

Going to run this contest again as my last upgrade contest ended today. So without further delay:

This thread is about upgrading 4 accounts to Leet (2x) and Uber (2x) accounts. To enter, show some quick love and post what you intend to do with your upgraded account and how it will help both the community here at HF and yourself in achieving your goals. Contest will end on October 2, 2020.

Wayne - September 28, 2020, 8:05 am

Posting to enter!

I want to get Ub3r so I can play with HF API

Good luck everyone!

Blue Sh - September 28, 2020, 9:37 am

Thanks for helping others!

I mainly want more access on this site because im a student and there are some stuff I would love to read and learn. I also want to access the Currency Exchange section because I deal with that a lot.

Astrogen - September 28, 2020, 9:56 am

My ub3r upgrade expired a few days ago. It would be nice to have the ub3r benefits back again, so together with my vendor status, I'll be able to +5 nice users such as yourself and -5 dickheads. Also, having those ub3r benefits would really help with my graphics service here.

Thank you!

Looking forward to win this contest and became L33T.

Pimping - September 28, 2020, 10:58 am

If I win Ub3r it will help me with making threads in sections I cannot make threads in and to help I will offer discount currency exchanges and also I will give back free stuff to the community like I have been doing with ewhore packs and helping in all other sections. This upgrade will also make me look more trusted thank you for giving away the upgrades I am looking forward to be Ub3r

SIM-4842743 - September 28, 2020, 1:02 pm

I am a new member here and want my account upgraded. I am looking for business here.

10tick - September 28, 2020, 1:35 pm

SIM-3205632 - September 28, 2020, 1:37 pm

If I get an upgrade I will finally be L33T again.

Chevy - September 28, 2020, 1:38 pm

I plan on using the upgrade to search within the higher-tiered categories of the forums so that I may be able to learn more than I already have while being here in the community. I also wish to thoroughly see what has already been contributed so that I know not to redistribute something that's already been here.

Tro yeh - September 28, 2020, 1:44 pm

I will be using l33t to explore hf even more, and it doesn't matter if i will get it or not, i will always post hq and help members around. Since that's what i like to do, and that's why i come here. Sending you some quick love. Thanks for the contest OP.

maryous - September 28, 2020, 3:43 pm

Thanks for the giveaway

An upgrade would be nice especially when I search for many things in this site. I'm still a student and would love to make things easier for me.

Proxies.tv - September 28, 2020, 7:33 pm

Appreciate all entries so far. For all newcomers just a QL (post quick love) and a brief description of what you want the upgrade for and you could be a lucky winner!

Rezon ® - September 29, 2020, 4:51 am

Sent you some quick LOVE :P

Would love to win this, want ub3r so I can start supporting peoples rep and neg for the right reasons. I would like to be vendor so this is part of the step for me :)

Shaggy - September 29, 2020, 5:40 am

Starting off on this, I would like to access "Currency Exchange" since I can convert Paypal to BTC without fees and instantly also I am aiming to Increase my Post Length when making threads since I cannot cover some additional information. Also, I am looking forward to the discount on Paid Bump by Stanley to up my sales thread in the future. The ability to start my own bytes lottery is a big help too since I frequently get eggs but unable to raise them due to lack of bytes, I'd rather make a lottery on them to gain bytes and invest it in sportsbook later on.

zarentokc - September 29, 2020, 6:10 am

I want to be able to post in the currency exchange section since i have funds to exchange. I'll also be able to + and - Users.

Assuming you qualify for Uber, I'll help you get there as best as I can.

Sounds like a good plan there. Stay active in the community as well for additional bytes.
