75 per dox

Payment accepted: BTC

I require one of the following:

- a picture(coming soon ill be able to find anyone with facial recognition)
- a full name
- an email address
- phone number
- ip address
- a gamertag
- a psn ID
- a domain name

I require 25 up front if I fail to get the dox but I doubt I will but you will be refunded its just so I know you're serious.

I can do most mainstream and off branch isps if you just have an IP so yes I can isp dox. I charge more for non mainstream isps though since its a bit more trickier.

You need to offer some proof or at least a couple vouch copies but I doubt anyone would send \$25 up front to an account with no b ratings, are you opposed to a middle man holding the money until you either succeed or fail?

I mean we can but its small amounts of money I typically use middle men when large amounts of money is being spent and im a pretty skilled doxer and enjoy doing it wouldn't ruin my rep over 25 dollars lmao people exit scam for thousands. It's literally just to prevent time wasters it's basically a quarter of the price I can even do 15 for a holding fee if it bothers people that much I just like having seeious clientele that actually need a dox.
