Thread: [You ever find weird shit people make about you online?](#)

Like, have you ever thought of what people say about you, if they reference you, have convos about you, bitch about you... obviously happens irl and with friends but like... random people online who don't know you and who you don't know?

I recently found this video of me that someone made in 2014. IDK who they are, don't remember what they are talking about. And it took me 6ish years to find it.

So weird.

I've recently looked up my old Minecraft IGN and found several videos of people accusing me of hacking as well as playing on servers with Bajan Canadian - a Minecraft Youtuber. Also, I found a dude who had literally stolen my identity and was pretending to make videos as me... super creepy but flattering nonetheless.

I can't say I've ever come across some random video or thread about me, like this. That's definitely an odd one. I just can't imagine ever getting irritated with a member here and publishing a video about them, haha.

I come from competitive cod so I used to get this quite a lot, kind of annoying but flattering at the

same time since the person doing it clearly thinks about you lol

There is a user here name @Big E@, he is so friendly to me thread replies but so annoying in public convo. Few days after being active, he was banned for hosting fake contest :D. I don't know if he's a friend or a foe for me.
