Even if you are trying to sell pictures/videos of of age women who look younger, you're still gross. I don't recommend what you're doing to anyone (If I think I know what you're doing).

Even if you're planning to either scam them or blackmail, that sounds incredibly risky and illegal. Pretty sure if whoever you talked to was a fed or if they got caught and you got linked, you'd get charged and convicted even if you were scamming. People do go to prison for selling shit like oregano as weed to undercover cops.

Most pedos might be too scared to buy because it might reveal some of their personal information, honestly I don't think it's worth it. Also don't blackmail or don't do anything that's blackhat, it isn't worth it and you're gonna get in trouble eventually, have some common sense dude.
