U have to publish 15 documents to access the gift card feature

How do i bypass this?

Passi - October 10, 2020, 10:28 pm

Hey, this is NOT your technic, but yes it's a technic that work great if you wanna grab a few bucks, couple that with a script for e-mail creation and you're good.

Like a guy said above:

Wondering this myself. Doesn't seem that going to the referral link before or after logging into another account does anything to the original account you're trying to gain points on.

Just invite your friend if he subscribes to it, You'd get 500 Points:

Documents Required to Access the Feature: 15
A Document Costs: 15
 $25 \times 15 = 375$
Points needed to access the feature: 375

Passi - October 12, 2020, 6:21 am

So I tried and It doesn't change anything, what time it takes to get the points from the referrals ? I think it can work but I don't think you get points just by referring, they have to do specific actions to unlocks the points (Elite noter, upgrade account...)

Need some help tho lol

This is stupid and pointless it didn't work.
