Thread: [Any methods or modded snapchat to fake snapchat?](#)

Hey guys, I'm looking for this.

Any method at all to make the guys believe they're talking to a real girl on snapchat?

Ok, I did a little digging and found out that there are modded apps like snxp and Astrosnap that does this.

Do they still work? And for how much?

@Faladodig: thanks.

I don't own an iPhone unfortunately.

Is there any method to get this set up on Android?

What does he have? I'm really interested in a fake live snapchat.
