Thread: [If you can go back to the past, what are the things you will fix?](#)

fernquaker - October 3, 2020, 2:05 am

Hi guys,

The title says it all.

For me, I would fix the one specific bad thing that I did because it harms me mentally. The reason why I want to do it is because, I want my mind to be pure and innocent again. Lesson learned, you can never make your mind pure again after it was damaged by doing bad things. It will always knock at the back of your mind.

How about you?

junnar1968 - October 3, 2020, 2:42 am

Well, I will change the way I think. Before I take everything for granted. Lots of money and opportunity.

But now regret not taking action on all of those opportunity that I had before.

alae - October 3, 2020, 2:51 am

If I had the power to go back in time and I would have had the opportunity to change something, I will change my bad decisions I made when I was young !

Pow3r - October 3, 2020, 2:54 am

I would spend time with the people I lost unexpectedly and make sure I said all the things I needed to. Cherish what you have, for one day, it may no longer be there.

I agree. One example of this opportunity is buying bitcoin in 2013 when I first started but I didn't do it.

Your right bro. I will do the same. If we had lots of bitcoins for sure are now millionaires.

FrostyNugs - October 3, 2020, 3:27 am

If I could go back there are so many stupid thing I did that I would change and defiantly reverse a few horrible experiences I had. Also would not mind going back to certain parties where I could have had a shot with a hot girl but said or did the wrong things lol

no_one - October 3, 2020, 3:53 am

my attitude. In the past I put more price on the opinion of other people and not mine

Morphine - October 3, 2020, 3:57 am

i would change alot of things on my life but what's its done is already done and you should go forward with this without penitential

I would have never started doing drugs. That stuff will mess your day up real quick.

Free Kurdistan - October 3, 2020, 4:46 am

Probably spare me from the years wasted on doing absolutely nothing. If I had the correct thoughts and got inspiration in good time then I'd be further now.

Yeah, we just have to move forward in life and learn from the past. As much as possible, live a life with no regrets.

Exactly! You need to have some quality time with your loved ones while they are still here on earth! We need to make the most out of the moment we are with them.

Sometimes, I think the same way. There are many "What ifs" question in my mind. For example, what if this is the girl I courted, what would be my life be?

(Oct 3, 2020 03:53 AM)no_one Wrote: [\[CITE\]](#) my attitude. In the past I put more price on the opinion of other people and not mine

We must learn how to listen to ourselves than other people. It is much a better feeling that way

around.

telly - October 3, 2020, 5:54 am

I spent a lot of time with fake people so I'd probably fix that and help my past self get my money straight and drop all the fake people

Vilanoxx - October 3, 2020, 6:05 am

I would of gone back to when I was 15/16 and a massive virgin, thinking back I could of shagged bare birds who wanted it so I'll go back to then and give them a good seeing too

Jinu - October 3, 2020, 6:26 am

My grandfather and grandmother were murdered and robbed by some stupid f**kers. If I get a chance to go back and fix something, I will surely save them.

Palms - October 3, 2020, 6:55 am

Well, I'd never get into gambling for sure.. Having a lot of issues cus of this addiction which really harms my casual life and relationships..

Charybdis - October 3, 2020, 8:09 am

I would've chosen a different college to play ball at.

Doom - October 3, 2020, 8:34 am

I wish I could undo some of the bad decisions I've made in the past from my childhood.

Proxies.tv - October 3, 2020, 10:35 am

My list is so long I think I'd need to start life all over again. :)

Yeah, you should stop hanging out with those kind of people. They suck at all.

The only thing I understand was a massive virgin. Do you mean you are a virgin like never been fugged? What do you mean by shagged bare birds if you don't mind me asking? I'm not familiar with those terms maybe because of cultural differences.

Yeah, gambling is harmful for relationships. It can ruin your life. Personally, my wife is scolding at me when I do gambling. I can't blame her.

I never did any work at school, doesn't really matter too much but it effected my grades a lot.

Skateboard - October 3, 2020, 7:05 pm

I probably wouldn't change anything in my life, the past is the past so I guess I would just try to create a wonderful future.

I don't mean to offend you or anything. But saying things like this, it seems you have a broken family relationship. Correct me if I'm wrong.

For me, not all things are being taught in school. So, it's okay for me being an easy go lucky during my school days. :D

I guess it's not too late for the time will come again that you will get back on track and for sure you have learned your lesson well.

For me I guess the things I used to do when I was on my college day where I just take it light and after a degree I plan to get another one but laziness take over and now that I have my own family I find it hard to get for another degree because lots of obligations is with me now :D

That would be pretty precise. When you are brought up by extremely violent parents that literally believed every deed deserved a good beating, you tend to want to start all over again with a different set of parents.

Sorry to hear that about your parents. At least try to still look for the positive side of things regardless of how awful your experiences are. If you have a family, don't let that happen to your kids as well because you've been a victim before. Don't be like them.

I made it my life's mission to be the opposite of how I was raised. Happily I can say I did not repeat the cycle. :)

That's good to here bro. I'm sure your family is lucky to have you in their lives. There is no reason to repeat the cycle like that. It will only consume you on the inside. Bad karma is waiting.

Proxies.tv - October 3, 2020, 9:37 pm

For many years I harbored resentment. Many long years. But I finally got over it because I knew it was finally over and I would not be the one to repeat it in my own life.

Very true. It is better to do something for the present than going back to the past and fix it. Because that will simply won't happen in reality. I'm just created this thread for fun and listen to people's thoughts.

I am trying my best to avoid it since it carries lots of regrets. How I wish many others knew the same.
