Thread: [Low cap gems on binance?](#)

SeekHelp - *October 4, 2020, 2:47 pm*

Any low cap gems you guys have your eyes on? I try to check out the ones that are recently listed but nothing really interesting caught my attention.

In my opinion, there are no gems on Binance. By the time a coin reaches Binance, private sale investors and VC's are already up too high and just dump on retail plebs.

Gems nowadays are on Uniswap. But is literally swimming on a pool of cow dung looking for a bar of gold.
