Thread: [\[LEAK\] HOW TO GET THOUSANDS OF .EDU EMAIL IN SECONDS METHOD HQ](#)

Thejackr7 - October 7, 2020, 3:50 am

Tbh its kind of clickbait but it works.

Method:

1. Leech a mail access combo from somewhere.
2. open it in notepad
3. Press CTRL+F
4. Type .edu
5. Grab an acc.
6. Go to <http://www.outlook.office365.com> and login

BOOM FREE .EDU EMAILS

what's that trash stuff you just wrote

Jeronim - November 22, 2020, 9:47 am

LOL. What a wierd thread.

So basiclly he is saying that we go to some hacking/cracking forums, find combolists and search for keyword ".edu" and try if it's valid or not.

This method is logic, but I recommend using a scanner to check the validity of combos, so you know which one is valid without trying them 1 by 1.

Otherwise, this method is null when it comes to real content.
