Thread: [No ebooks and guides allowed in Premium Sellers Section](#)

The PSS is filled with so much ebooks and guides, would it be possible to enforce a rule so that people can only post listings for guides/methods/ebooks in a section specifically for that kind of thing?

I feel like many people go through the PSS looking for interesting stuff to buy or they look for something specific, and it's just filled with junk ebooks and stuff that just takes up space in the PSS.

Agreed. Along with gambling scripts, which if I'm not mistaken is already not allowed in PSS

Suggested and denied 500 times already.
