Stanley - October 9, 2020, 2:10 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Its possible to use for spamming ? With HTML Message + Bulk Maillist ?

Roberto Scorpis Malfoy - October 18, 2020, 3:17 pm

I am interested, whats your telegram or discord?

.Alpha. - October 19, 2020, 12:07 am

Quite interested in this service. Is this restricted to only gmail, yahoo and the common email providers? Also, we're only being charged when we use this instead of access (registration) for this service? Price is pretty worth the value.

I don't think I would trust this service as I deposited \$2 BTC into my balance a few hours ago and it still hasn't shown up. Will update if anything changes.

EDIT: Funds have finally shown up in the balance!

I am NOT vouching, since I don't have a contract.

But I used this before (to test) and it showed up for me just fine. Send the OP a message I think.

I tested my mailbox for 30 minutes. Originally, I wanted to record the difference between the effectiveness of FS and floodcrm.net, but the effect of FS was so amazing that I could hardly calculate the amount of mail even though a lot of mail was sent to Trash inbox, but there are still a very large and surprising number of intensive and uninterrupted sent to the main inbox and promotional content
