What is eWhorring?

eWhorring is when you offer a sexual service for another human being online & make money of it. You can act like a girl or a male, really depends on what group you are targeting and what their sexual desires are. You will act as they want you to act. Let's say you are a girl named Michelle. (I'm sorry if somebody has the name Michelle here).

When acting like Michelle you would offer your target to buy nudes, videos, or even cam shows. It really depends, anything can sell, even old underwear or socks.

You could also offer meetups, but you are going to have to scam them in that case. Unless your name really is Michelle and you would like roughly 60 minutes of SM sex.

But I would really suggest you not scamming anyone. There are much better ways of doing eWhorring. If you scam the target, you are most likely not able to make any more money from him. And then there's also the fact that you will make it harder for everybody else to make a good amount of money eWhorring.

Social Engineering as an eWhore

This is one of the most important parts of eWhorring.

If you do not have any skills manipulating the target, you will not earn the amount of money you should. You need to be able to manipulate the target into buying whatever you are selling.

At some point, people will start asking questions. Like what do you need the money for?

In the situation, you have to think out of the box. It could be for your sick aunt's medical bills. Or you could send them a picture of a very expensive dildo, that you would like to use in your videos.

This is the entire meaning of Social Engineering manipulating someone into giving you what you desire.

You need to read the client, read his way of texting, check the targets Story on Snapchat, look after whatever could provide you any good detail for manipulating the target.

Is eWhorring illegal?

The answer is yes. It is not legal to do eWhorring.

First of all, you are selling somebody's else pictures, and 90% of the time, you are not allowed to sell them by the person who is on the pictures or the content you sell.

Also, it's kind of being an Identity thief. You are doing fraud here, you act completely like you are somebody else, you write in a different way, you act in a different way, you give them false hope, and you offer to prostitute yourself in some cases. This is a fraud.

But the risk of being caught is extremely small. Unless you are trying to blackmail people or do other stupid things. Just don't.

Be happy with what you make, and don't get yourself into these stupid situations.

How to receive payments?

There are multiple ways of receiving payments.

However, I'm sure you heard all the scare stories about PayPal before. Well, they are true.

In so many cases you will be limited and have your account locked with loads of money on it.

It's simply not worth it.

Therefore I never recommend anyone to use Paypal as their preferred payment method. If you decide to do anyways, make to cash out as often as you can. You will regret being stuck with hundreds of dollars in a PayPal account. I speak from experience.

Here are a few other options. Google Pay

Apple Pay

Amazon Gift Cards (Good for reselling purposes, and making it into BTC)

Just in a general gift card. Could even be for IKEA or any restaurant you would like to visit.

Cashapp - Depends on which country you are from, but it is doable to get the app in any country.

Venmo

Where do you get the clients from?

This is a very big question and most questions in the whole section here on the forum are regarding traffic. Traffic becomes harder and harder to obtain. It's all about finding a traffic source that is not saturated.

When it comes to an end it's really just about thinking out of the box.

There are multiple saturated chat-rooms.

Like Chat-avenue, free chat now, and so on.

It will probably make you \$5 or \$10 in a few hours if you are lucky. I'm just being honest here. I have my own private methods to obtain my HQ traffic. And this is what will help you the most, finding your own way of obtaining traffic.

What platforms is best for eWhoring?

This is really all about what you personally prefer. My preferred platform is Snapchat and so it is for many other people. I would really also say that this is the best platform for eWhoring in 2020. Every single platform has a single and a minus.

Be innovative and find your own platforms to eWhore on.

Here are a few platforms that you could use for a start.

Snapchat

Instagram

Twitter

Reddit

KIK

Skype

Dating Sites

Online Adult Chats

Facebook

What is an eWhore pack? And how do I obtain these packs?

The eWhore pack has everything to do with how much money you make. What kind of eWhore pack you should be using, really depends on what kind of environment you are doing business. But, an eWhore pack is a pack full of juicy content that you potentially can sell to your coming clients. The pack should be full of pictures videos and verifications. I always prefer creating my own packs and using packs with at least 1300-1400 pictures/videos as I will have more content for my private stories on Snapchat.

Verification is a picture that proofs you are the girl you are saying you are. Usually pictures of the girl holding 2 fingers or something else the client request. eWhore packs in general easy to obtain. But HQ ones are not easy to get your hands on. I always recommend people buying an eWhore pack, and there is no reason to be afraid of investing in a pack, as it will make you a lot more money with a decent pack.

How profitable is eWhorring?

So how much money can you actually make? There are simply no limits. It really depends on your skillset and how much time you are willing to invest, and how patient you are as a person. Some days I make \$150 other days I can easily pull in \$2-3k.

Some days are good and some days are worse. But the paydays are always great to make outstanding offers.

Keep doing an effort. Don't give up when you are not making a single penny. Learn from your mistakes and think smart.

My tips & tricks.

Buy a decent pack, do not use a saturated pack.

Don't go straight for the money, be patient, and chat a bit before requesting one million dollars transferred.

Generate yourself an identity and write down the girl's entire life. And use it as a the eWhore bible whenever someone is asking a question about your life.

DO not be afraid to re-invest the money you make, in new packs or paid traffic. It will help you out make greater amounts of money.

Do not eWhore anyone below the age of 18. This can cause you major troubles.

Do not spend time arguing with clients. If they are not buying and are time wasters, simply delete and block them.

I sincerely hope the guide helps out anyone beginner out there.

eWhore is still a easy way to make a ton of money.

Good luck making bank.

What I also recommend to new e-whorers is to take a hour or two to learn about copywriting, as it will help them VERY much. Also, do not forget look up TridentX's posts - if you know how to apply new things you teached to your work, you will get to high level very quickly.
