Thread: [Growth Services?](#)

BalleJatta - October 8, 2020, 12:25 pm

Where did all the Instagram growth services disappear? I remember one guy selling one bot here back then but he too disappeared?

telly - October 8, 2020, 12:48 pm

A lot of automated things have been hit hard by instagrams algorithm, I would recommend looking into manual growth

Perileos - October 8, 2020, 12:50 pm

A lot of the bots have been slammed down sadly.

I've been thinking about opening a manual growth service for IG if you were interested in that, just like 1 month package and me or one of my staff log onto the account, post content daily (1 post a day) and then interact with similar accounts for an hour every day to help grow your account organically :)

Completely open offer, not got all the details worked out yet so its just an idea atm :)

Hey if you're talking about a bot that follow certain #tags, automatically likes etc...

I would recommend Somiibo

BalleJatta - October 9, 2020, 12:56 pm

Ye, I remember the section were full of People offering growth services back then, all disappeared!

What strategies are you all using to grow IG now?

Wheelie - October 10, 2020, 6:01 am

I'm using hashtastic to research ranking hashtags for my account and it's actually been working really well. Have grown my account a couple thousand this past month and slowly started to become more active.

If you research the right amount of correct hashtags then you'll have no problem ranking and brining in new traffic in your account

Elijah - October 10, 2020, 7:47 am

many things gets IG Account banned now a days, need to wait for this guys to Update there things.

This app is actually a paid one. Starting plan at 9.99/month and if you get the yearly plan you save \$30 overall. It's a great app that you should consider trying for a month
