So, I was browsing CE section, looking to sell my bytes and I saw user [b 7 0 7](#) posting in [this thread](#), looking to buy some bytes as u can see in this picture Spoiler ([Click to View](#))

He signed himself -xanny boy at the end

I sent him convo like instantly, and he told me he doesnt need them, but he posted literally 1 minute ago that hes looking to buy them, as u can see on screenshot that post was 1 minute ago

I was confused, so I clicked back button on my browser few times so I could get to the original post of his, just to check out if I'm way too high or is he fucking with me

And guess what, user [edited his post](#) and he signed himself as -b707

Pretty weird shit if u ask me

I was legit in a call with him and told him to change the post, and I ask are you gonna buy bytes and he said no...

told him he can't do that and switch it.. or delete his post. but I'm not sure if he's able to delete as he's not upgraded.

anyways I'm not tryna argue.

Have a good one man!
