Thread: [How can I make multiple Swagbucks accounts without getting banned?](#)

SIM-4832624 - October 9, 2020, 8:10 pm

I don't know where to ask this, sorry if in wrong section. Move to right section, please. thanks.

I need to be able to make 10-16 swagbucks accounts PER day without getting it banned.
Usually takes 1-3 days before I get banned if I don't get banned instantly when I make an account with VPN.

Using a VPN will get you banned. I can make 2-4 accounts with my WiFi and another 2-4 accounts using my mobile data.

But sometimes using my mobile data gets me banned when making a new account.

Let me know how I can do this. Thank you.

Use private residential proxies.

if i was you i should just stick with earning money fair on there, because scamming the system really only results of getting banned really, they have a really strict safety check when you wanna pay out your money.

Grind surveys, play games, maybe reffer people tru your social media if you have a following BUT be fair with them, and don't promise them stuff they won't get.

Good luck.
