Currently only working with YouTube. Looking into getting twitch added.

Max time is 2 hours per request. Request can be sent back to back. With the current set limits to ensure there is enough HQ proxies for everyone the limit is 150-250 depending on the server load at the moment. 150 being the lowest you'll receive at max threads.

Do i have to join a discord server to use it, or can i add the bot in my own server?

I planned on adding everyone to the server with the bot but on request I could add the bot to a specific server for the customer to use.

In that case you might not be able to sell this here on HF as its not allowed to share discord server invite links in posts nor PMs.

I would suggest try to sell it so a person gets a link to add the bot in their own private server and redeem the license key to activate the bot.

Bigbims - October 11, 2020, 10:35 am

Hey whats your discord? I had a few questions before buying thanks.

I was given a vouch copy from OP to review this product.

Let me start off by saying that OP is a very friendly guy.

I was added to their server where the bot was located. From there I was able to redeem my license and try out the bot.

At first I was a bit sceptical, but damn this is a very strong bot. It pumps up the views within seconds and hold the viewers very stable.

Currently the bot allows a max of 100 threads which gives you between 100 and 150 viewers.

I wanted to make a reaction video of Livestreamers reacting to the viewbot but my god people are

so fucking boring, they don't give a kick when they get viewbotted.

Here is a video of the bot at work: <https://streamable.com/dv8deh>

I also tried to bot for a longer period of time, meaning 1/2 hours. What I noticed is the following:
I botted a streamer with 100 threads for a period of 1 hour. The guy started on page 3 with 2 viewers. Due to the viewbot he jumped to page 1 and when I turned the bot off, he had 39 real viewers watching and chatting with him.

This bot gets a big vouch from me.

Excited to see what the devs can do when it comes to Twitch ;)

Stanley - October 22, 2020, 7:05 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
