This is a website that allows you assign multiple capacity in capacity, you can do as much as you want,
with these shared drives, you are assigned to these drives forever and you are given all the benefits of a premium shared drive, which means maximum upload/download speeds.

This is legal, and totally free. No shady business and or anything or malware.

A friend of mine gave me unlimited Google Drive access.

But,

It got expired after 1 and half year. I lost access to some of my important data, including BTC Seed phrase that I had there. Lost around 1.2 million dollars.

No longer looking to get these things, I'll just buy from Google officially if need.
